Jurisdiction Stephen Macedo, 2006-02-22 Universal jurisdiction is becoming a potent instrument of international law but it is poorly understood by legal experts and remains a mystery to most public officials and citizens *The Immunity of States and Their Officials in International Criminal Law and International Human Rights Law* Rosanne Van Alebeek, 2008-03-06 The development of international human rights law and international criminal law has triggered the question whether states and their officials can still shield themselves from foreign jurisdiction by invoking international immunity rules when human rights issues are involved The Pinochet case was the first case that put this issue in the limelight of international attention Since then the question has been put to several domestic and international courts and has engaged the minds of scholars and politicians around the world This book examines the tension between international immunity rules international human rights law and international criminal law The progressive development of a normative system of international human rights law and international criminal law without the simultaneous development of international institutional enforcement mechanisms had brought the question of the role of national courts in the application of these norms to the fore and has made the question as to the relation between immunity rules and human rights and international criminal law an immediate one The tension between the centuries old immunity rules and the relatively recent developments in international human rights law and international criminal law presents itself in two distinct forms In the first place it can be questioned whether immunity rules as such are compatible with certain fundamental rights of individuals under international law such as the rights of access to court the right to a remedy or the right to effective protection Secondly it can be questioned whether immunity rules apply unabridged in proceedings concerning grave human rights abuses In its examination of these two questions this book sets out to clearly distinguish the different scope and nature of the rule of state immunity the rule of functional immunity and the personal immunity of diplomatic agents and heads of state While strong arguments against certain applications of immunity rules can be derived from international human rights law and international criminal law this book argues that an unqualified attack on immunity rules risks casting a shadow over all human rights based arguments **Observation sur les instincts**

de l'homme et l'intelligence des animaux Henri Gay, 1878 **Catena Librorum Tacendorum** Henry Spencer Ashbee, 1885 **Journal de Trévoux**, 1968 **State Practice Regarding State Immunities/La Pratique des Etats concernant les Immunités des Etats** Council of Europe/Conseil de l'Europe, Gerhard Hafner, Marcelo Kohen, Susan Breau, 2006-06-01

This book is the result of the Council of Europe Pilot Project on State Practice Regarding State Immunities carried out under the auspices of the Committee of Legal Advisers on Public International Law CAHDI since 2002. It presents and analyses the material submitted by 27 Member States and one Observer State of the Council of Europe including decisions of national courts, relevant legislation and other documents. The analytical report was undertaken by the Department of European International and Comparative Law of the University of Vienna, the British Institute of International and Comparative Law and the Graduate Institute of International Studies, Geneva. It compares State practice with the relevant articles of the UN Convention, the European Convention on State Immunity and the draft articles prepared by academic institutions. It is the first in-depth analysis of European State practice in the field of State immunity. Such a broad analysis is essential in particular for the ascertainment of customary international law. This book is addressed to officials, practitioners engaged in business relations with foreign States and academics.

Ce livre est le résultat du Projet Pilote du Conseil de l'Europe sur la Pratique des Etats concernant les immunités des Etats réalisé sous les auspices du Comité des Conseillers Juridiques sur le Droit International Public CAHDI depuis 2002. Il présente et analyse la documentation fournie par 28 Etats membres et un Etat observateur du Conseil de l'Europe, y compris des décisions des juridictions nationales, la législation pertinente et d'autres documents. Le rapport analytique a été élaboré par le Département de droit européen international et comparé de l'Université de Vienne, l'Institut britannique de Droit International et Comparé et l'Institut des Hautes Etudes Internationales de Genève. Il compare la pratique des Etats avec les articles pertinents de la Convention des Nations Unies de la Convention européenne sur l'immunité des Etats et les projets d'articles préparés par les institutions académiques. C'est la première analyse approfondie de la pratique des Etats européens en matière d'immunités des Etats. Une analyse aussi large est indispensable notamment en vue de l'identification du droit international coutumier. Ce livre s'adresse aux fonctionnaires, aux praticiens entretenant des relations d'affaires avec des Etats étrangers et aux universitaires.
