Council, Division on Earth and Life Studies, Institute for Laboratory Animal Research, Board on Agriculture and Natural
 Resources, Committee on the Review of the Smithsonian Institution's National Zoological Park, 2005-11-27 This report follows
 up on an interim report released in February 2004 that focused on immediate needs in the areas of animal care and
 management recordkeeping and pest control The report finds that the zoo has made good faith efforts to correct deficiencies
 noted in the interim report and has made some noticeable improvements in the past year in zoo operations and animal care
 However problems in areas such as staff training workplace culture and strategic planning still need to be addressed
 Specifically the report recommends that the zoo immediately develop and implement animal care training programs to
 ensure that people who are directly responsible for the well being of its animal collection are adequately prepared and
 competent The report commends a zoo initiated strategic planning process as a positive step but recommends it contain a
 more detailed comprehensive strategy of how it will meet short term goals and that it should link plans to upgrade facilities
 with those to acquire animals The zoo should also focus on improving communication among keepers veterinarians
