Kellogg,2025-05-06 Explore the transformative power of Romanticism where emotion imagination and contradiction collide through the eyes of its greatest thinkers and artists The post Enlightenment movement known as Romanticism is a messy period so messy in fact that many scholars eschew any attempt to define it In reaction to the overreliance placed on reason by Enlightenment thinkers Romantics emphasized individual freedom emotional intensity introspection sincerity and heightened imagination They sought out nature at its wildest and most sublime tall mountains steep gorges and resounding cataracts They dabbled in the gothic and grotesque in mythology the sacred and the mystical Romanticism was a turning inward into subjectivity In *The Wisdom of the Romantics* author Michael Kellogg profiles such disparate authors as Rousseau and Balzac Goethe and Hegel Wordsworth and Jane Austen revealing that classifying Romantic thinkers is a highly subjective enterprise which is the whole point That isn't to say that the change in thinking was inconsequential Far from it The transition from Haydn and Mozart to Beethoven and Chopin could not have been more dramatic The German born composer Giacomo Meyerbeer brought grand opera to new heights The paintings of Francisco Goya William Blake Caspar David Friedrich and J M W Turner were all part of the transition away from a classical academic style to the emotive extremes that heralded the coming of impressionism in the latter part of the century In this latest entry into his popular *Wisdom* series Kellogg explores the mercurial and ephemeral movement known as Romanticism arguing that what Romanticism is includes many contradictions precisely what the rationalists rejected **Encyclopedia of the Novel** Paul Schellinger,2014-04-08

The *Encyclopedia of the Novel* is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world James McNeill Whistler and France Suzanne Singletary,2016-11-18 James McNeill Whistler and France A Dialogue in Paint Poetry and Music is the first full length and in depth study to position this painter within the overall trajectory of French modernism during the second half of the nineteenth century and to view the artist as integral to the aesthetic projects of its most original contributors Suzanne M Singletary maintains that Whistler was

in a unique situation as an insider within the emerging French avant garde thereby in an enviable position to both absorb and transform the innovations of others and that until now his widespread influence as a catalyst among his colleagues has been neither investigated nor appreciated Singletary contends that Whistler's importance rivals that of Manet whose multi layered and often unexpected interconnections with Whistler are the focus of one chapter In addition Whistler's pivotal role in linking the legacies of Baudelaire Delacroix Gautier Wagner and other mid century innovators to the later French Symbolists has previously been largely ignored Courbet Degas Monet and Seurat complete the roster of French artists whose dialogue with Whistler is highlighted

Honoré de Balzac Peter Brooks, 2022 A book on the experience of reading Honor de Balzac's *La Comédie humaine* which recounts the process of Peter Brooks's own discovery of Balzac A personal account of coming to terms with Balzac moving from more classical and restrained authors to the highly coloured melodramatic novels of the *Human Comedy* which give us the dynamics of a new and challenging world on the threshold of modernity This volume shows readers how to read and to love reading Balzac and how to engage with his vast work

Urban Confrontations in Literature and Social Science, 1848-2001 Edward J. Ahearn, 2016-02-11 In an innovative contribution to the challenging of disciplinary boundaries Edward J Ahearn juxtaposes works of literature with the writings of social scientists to discover how together they illuminate city life in ways that neither can accomplish separately Ahearn's argument spans from the second half of the nineteenth century in Western Europe to the present day United States and encompasses a wide range of literary genres and sociological schools For example Charles Baudelaire's essays on the city are viewed alongside the work of Emile Durkheim and Georg Simmel Bertolt Brecht's *Jungle of Cities* heightens the arguments of Louis Wirth and Robert Park Richard Wright's *Native Son* and Saul Bellow's *The Adventures of Augie March* are re-visioned in tandem with works by William Julius Wilson and others Herman Melville's *Bartleby the Scrivener* poses a challenge to James Q Wilson's *Bureaucracy* Toni Morrison's historical novel *Jazz* is buttressed by the career of Robert Moses and the revisionist work of historians Hilary Ballon and Kenneth T Jackson and Don DeLillo's *Cosmopolis* comes into brilliant focus in the light of arguments on world cybercities by David Harvey Saskia Sassen and Manuel Castells Resisting the temptation to ignore contradictions for the sake of interpretation Ahearn instead offers the reader a view of the modern city as complex as his subject matter Here the methodologies and knowledge generated by the social sciences are both complemented and subverted by the experience of city life as portrayed in literature With its diverse narrative tactics and shifting points of view which can be as disorienting to the reader as a foreign city is to an arriving immigrant literature reinforces the importance of method and outlook in the social sciences Ultimately Ahearn suggests neither literature nor the social sciences can capture the experience of urban misery

present **The Cylinder** Helmut Müller-Sievers, 2012-03-28 The Cylinder investigates the surprising proliferation of cylindrical objects in the nineteenth century such as steam engines phonographs panoramas rotary printing presses silos safety locks and many more Examining this phenomenon through the lens of kinematics the science of forcing motion Helmut Müller Sievers provides a new view of the history of mechanics and of the culture of the industrial revolution including its literature that focuses on the metaphysics and aesthetics of motion Müller Sievers explores how nineteenth century prose falls in with the specific rhythm of cylindrical machinery re imagines the curvature of cylindrical spaces and conjoins narrative progress and reflection in a single stylistic motion Illuminating the intersection of engineering culture and literature he argues for a concept of culture that includes an epoch's relation to the motion of its machines *Film Noir* Homer B. Pettay, 2014-11-11 Explores the development of film noir as a cultural and artistic phenomenon This book traces the development of what we know as film noir from the proto noir elements of Feuillade's silent French crime series and German Expressionism to the genre's mid twentieth century popularization and influence on contemporary global media By employing experimental lighting effects oblique camera angles distorted compositions and shifting points of view film noir's style both creates and comments upon a morally adumbrated world where the alienating effects of the uncanny the fetishistic and the surreal dominate What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality Much of the appeal of film noir concerns its commentary on social anxieties its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity This book examines the changing often volatile shifts in representations of masculinity and femininity as well as the genre's complex relationship with Afro American culture observable through noir's musical and sonic experiments Key features Traces the history of film noir from its aesthetic antecedents through its mid century popularization to its influence on contemporary global media Discusses the influence of literary and artistic sources on the development of film noir Includes extensive bibliographies filmographies and recommended noir film viewing Concludes with a reflective chapter by Alain Silver and James Ursini on their own influential studies and collections on film noir criticism **Crisis-consciousness and the Novel** Eugene Hollahan, 1992 This book examines the emergence of modern consciousness as consciousness develops historically in one cultural form prose fiction narrative The book represents a critical history of crisis arguably the most characterizing single word in the modern world and a major figuration or trope Eugene Hollahan has studied the history of this important word within the development of the English language novel from Samuel Richardson to Saul Bellow After establishing a heuristic model for such a critical history Hollahan tracks the word characterized by George Eliot in Felix Holt the Radical as a great noun through two and a half centuries of narratives by major novelists with contextualizing excursions into discourses in related fields such as autobiography philosophy theology and social science Hollahan contextualizes his study of English language narrative fiction by examining the writings of crisis rhetoricians in the eighteenth century Thomas Paine nineteenth century Thomas Carlyle J

S Mill and J H Newman and twentieth century Karl Barth Edmund Husserl T S Kuhn and Richard M Nixon Such varied and powerful crisis rhetorics establish a matrix of language and ideas for the crisis centered novels Hollahan surveys These novels include major works by Samuel Richardson Walter Scott Jane Austen George Eliot George Meredith George Gissing George Moore D H Lawrence E M Forster James Joyce Lawrence Durrell Robert Coover and Saul Bellow Hollahan s description of the crisis trope interfaces with various critical issues such as canonical inclusion reader response and deconstruction On the whole his book acknowledges current critical issues but endeavors to remain basically a critical history It attempts to demonstrate that the crisis riddled modern world and the crisis conscious novel are analogous and coeval Crisis begins as Aristotle s term for logical plot structuring becomes Longinus s term for emotional exacerbation and eventually enters into a variety of critical and narrative formulations Matthew Arnold s cultural centrality Henry James s existential aestheticism Lawrence s self defining sexuality Marshall Brown s revolutionary turning point Paul de Man s error ridden criticism Floyd Merrell s cut into the primordial flux Durrell s reborn self and Bellow s analysis of hysterical escapism Broadly speaking Hollahan argues that any crisis trope will enable or even necessitate a unique confluence of writerly and readerly skills In Louis Lambert Balzac urged What a wonderful book one would write by narrating the life and adventures of a word The story Hollahan narrates fulfills Balzac s expectations as it depicts writer after writer working out influential representations of human life in terms of crisis consciousness centering upon George Eliot s great noun crisis Historically Hollahan demonstrates such consciousness comes to define modern humanity
