Fiscal Affairs Department,2001 In preparing the Manual a number of points have been taken into account First the Code is being implemented on a voluntary basis To promote an appreciation of the rationale for the Code and an understanding of its fiscal transparency requirements the Manual sets out in detail the principles and practices included in the Code However because of the complexity of fiscal management systems the Manual does not provide comprehensive directions on how all the good practices are to be put in

place Instead it contains numerous references and website addresses that can assist with the practical implementation of the Code Second fiscal transparency is only one aspect of good fiscal management and care is needed to distinguish fiscal transparency from two other key aspects namely the efficiency of fiscal policy and the soundness of public finances Third diversity of institutional backgrounds and capacity constraints to improving fiscal management are clearly recognized For this reason the Code is not a best practice standard Rather it is a set of good practices that can be implemented by most countries over the medium to longer term *Nepal* International Monetary Fund,2004-10-21 This paper focuses on Nepal s First Review of the Three Year Arrangement Under the Poverty Reduction and Growth Facility PRGF and Request for Waiver of Performance Criteria The difficult political and security situation notwithstanding the PRGF supported program is broadly on track All quantitative targets for the first review were met and all structural reform measures are expected to be implemented by the Board date although some actions were completed after the target dates For 2003 04 real GDP growth is estimated at 31 2 percent in line with the program Monthly Catalog of United States Government Publications ,2000
