

The Influence of Same-Sex Marriage on the Understanding of Same-Sex Relationships

Pamela J. Lannutti, PhD

Boston College

ABSTRACT. This study examines the ways in which legally recognized same-sex marriage affects the understanding of same-sex romantic relationships for lesbian, gay, bisexual and transgendered (LGBT) individuals. Participants ($N = 288$) responded to an open-ended Web-based survey asking them to describe how legally recognized same-sex marriage influenced their view of their own romantic relationship or romantic relationships in general. Results indicate that legally recognized same-sex marriage impacted participants' understanding of romantic relationships by making existing relationships seem more real and by serving as a tool through which participants realized their desires for ideal potential partner and relationship characteristics. The results suggest that legally recognized same-sex marriage is seen as both beneficial and challenging for same-sex couples. doi:10.1300/J082v53n03_08 [Article copies available for a fee from The Haworth Document Delivery Service: 1-800-HAWORTH. Peopling the Constitution John E. Finn, 2014-03-24 The U S

Constitution begins with the soaring words We the People but we the people have little to do with the document as most of us have come to know it When most people think of the constitution they think of it as a legal instrument the province of judges and lawyers who alone possess the expertise and knowledge necessary to discern its elusive and complex meaning This book outlines a very different view of the Constitution as a moral and philosophical statement about who we are as a nation This Civic Constitution constitutes us as a civic body politic transforming the people into a singular political entity Juxtaposing this view with the legal model the Juridic Constitution John E Finn offers a comprehensive account of the Civic Constitution as a public affirmation of the shared principles of national self identity and as a particular vision of political community in which we the people play a significant and ongoing role in achieving a constitutional way of life The Civic Constitution is the constitution of dialogical engagement of contested meanings of political principles of education of conversation Peopling the Constitution seeks nothing less than a new interpretation of the American constitutional project in an effort to revive a robust understanding of citizenship It considers the entire constitutional project from its founding and maintenance to its failure with insights into topics ranging from the practice of deliberative democracy and the meaning of citizenship to constitutional fidelity civic virtue the separation of powers federalism and constitutional interpretation The Civic Constitution in Finn s telling is primarily a political project requiring an active engaged and most importantly constitutionally educated citizenry committed to the civic virtues of civility and tending When we as citizens are unwilling or unable to tend to and sustain the Constitution and when constitutional questions reduce to legal questions and obscure civic interests constitutional rot results And in post 9 11 America Finn argues constitutional rot has begun to set in With its multi dimensional vision of constitutional governance Finn s book stands as a corrective to accounts that locate the Constitution in and conceive it essentially as a legal instrument making a powerful and impassioned argument for restoring the people to their rightful place in the politics and practice of the Constitution

Contours of Domestic Life, Family and Law Anne Bottomley,Simone Wong,2009-09-17 Drawing from a wide range of material and socio legal methods this collection brings together original essays written by internationally renowned scholars investigating emerging patterns in the shape and form of the legal regulation of domestic relations Taking as a focus the theme of caring and sharing the collection includes chapters which reflect on the changing contours of what we think of as domestic relations the impact which legal recognition carries in making visible some relationships rather than others the

potential for normative values carried within patterns of legal recognition and regulation intersections between private law and public policy the role of private law in the allocation of responsibility and privilege the differential impact of seemingly progressive policies on economically vulnerable or socially marginal groupings tensions between family law models and models carried within other fields of private law and unusually architectures in law and the built environment designed to facilitate broader accounts of domestic relationships This thoughtful provocative and wide ranging collection will be a must for anyone whatever their discipline background interested in the insights and potential offered by a fresh engagement with the complexity of domestic relations and the law Authors Anne Barlow Anne Bottomley Susan Boyd and Cindy Baldassi Alison Diduck Susan Scott Hunt Nan Seuffert Carol Smart Simone Wong and Claire Young *Queer Theory: Law, Culture, Empire* Robert Leckey, Kim Brooks, 2010-06-10 Queer Theory Law Culture Empire uses queer theory to examine the complex interactions of law culture and empire Building on recent work on empire and taking contextual socio legal comparative and interdisciplinary approaches it studies how activists and scholars engaged in queer theory projects can unwittingly advance imperial projects and how queer theory can itself show imperial ambitions The authors from five continents delve into examples drawn from Bollywood cinema to California's 2008 marriage referendum The chapters view a wide range of texts from cultural productions to laws and judgments as regulatory forces requiring scrutiny from outside Western heterosexual privilege This innovative collection goes beyond earlier queer legal work engaging with recent developments featuring case studies from India South Africa the US Australasia Eastern Europe and embracing the frames offered by different disciplinary lenses Queer Theory Law Culture Empire will be of particular interest to students and researchers in the fields of socio legal studies comparative law law and gender sexuality and law and culture Discrimination against homosexual men with different marital status in Germany's labour market Nadine Trieschmann, 2020-07-09 Seminar paper from the year 2018 in the subject Business economics Business Ethics Corporate Ethics grade 1.7 University of Cologne course Bachelorseminar language English abstract The research question is if homosexual married men are favoured in the hiring process over homosexual single men in the German labour market and secondly if this marriage effect is stronger for homosexual men than for heterosexual men To be able to answer this question a Correspondence Test has to be conducted Four fictional applications of males who vary in their sexual orientation heterosexual versus homosexual and marital status married versus single will be sent to vacancies in the sixteen German provincial capitals and sixteen rural regions in Germany Since the first of October 2017 same sex couples in Germany have the right to marry Until this point in time homosexual couples could only enter into a registered partnership with the same duties but not the same rights as heterosexual married couples This significant development in law may introduce new problems and challenges Ann Ferguson 2007 for one criticises that homosexual marriage could shift social hierarchies which in return creates a new differentiation between homosexual people who live in a single household and the more socially accepted married homosexual couples Butler 2004 argued that

homosexual marriage could be understood as a way to push homosexuals into a normalized lifestyle for example marriage a monogamous family life and also successful careers which could increase social acceptance In this sense this paper is building on the work by Weichselbaumer 2013 who examined the difference in economic outcome between single lesbians and lesbians in a registered partnership in Munich and Berlin She found no differences between single and partnered lesbians in Munich both groups are treated unfavourably in comparison to heterosexual women In Berlin she found out that there is no discrimination based on sexual orientation But some studies showed that negative attitudes towards homosexual men are more present than towards lesbians and that employers may have preferences for male employees with one steady married partner If this is the case homosexual men may benefit more from signalling that they live in a marriage than lesbian women would Therefore this paper sets forth the study of Weichselbaumer 2013 by focusing on homosexual men instead of lesbians and on the other hand by measuring the effect after the legislation of same sex marriage in Germany
