Wright, 2022-01-14 Black celebrities in America have always walked a precarious line between their perceived status as spokespersons for their race and their own individual success and between being not black enough for the black community or too black to appeal to a broader audience Few know this tightrope walk better than Kanye West who transformed hip hop pop and gospel music redefined fashion married the world's biggest reality TV star and ran for president all while becoming one of only a handful of black billionaires worldwide Despite these accomplishments his polarizing behavior controversial alliances and bouts with mental illness have made him a caricature in the media and a disappointment among much of his fanbase This book examines West's story and what it reveals about black celebrity and identity and the American dream **Encyclopedia of Case Study Research** Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2009-10-21 Case study research has a long history within the natural sciences social sciences and humanities dating back to the early 1920's At first it was a useful way for researchers to make valid inferences from events outside the laboratory in ways consistent with the rigorous practices of investigation inside the lab

Over time case study approaches garnered interest in multiple disciplines as scholars studied phenomena in context. Despite widespread use, case study research has received little attention among the literature on research strategies. The Encyclopedia of Case Study Research provides a compendium on the important methodological issues in conducting case study research and explores both the strengths and weaknesses of different paradigmatic approaches. These two volumes focus on the distinctive characteristics of case study research and its place within and alongside other research methodologies.

Key Features: Presents a definition of case study research that can be used in different fields of study; Describes case study as a research strategy rather than as a single tool for decision making and inquiry; Guides rather than dictates readers' understanding and applications of case study research; Includes a critical summary in each entry which raises additional matters for reflection; Makes case study relevant to researchers at various stages of their careers across philosophic divides and throughout diverse disciplines.

Key Themes: Academic Disciplines; Case Study Research Design; Conceptual Issues; Data Analysis; Data Collection; Methodological Approaches; Theoretical Traditions; Theory Development and Contributions From Case Study Research; Types of Case Study Research.

Tyranny from Plato to Trump Andrew Fiala, 2022-03-15. Power grabs, partisan stand-offs, propaganda and riots make for tantalizing fiction, but what do we do when that drama becomes a reality all around us? For a country founded as an escape from British tyranny, the United States seems to have devolved into a land where tyrants rise to power, sycophants blindly follow, and the entire nation suffers. As ancient Greek philosophers warned us, chaotic tragedy unfolds in the absence of reason, and the only cure is a return to wisdom and virtue. America's founding fathers knew this lesson all too well and dreamed of an enlightened citizenry guided by better than ideological dictators. Using contemporary events to illuminate universal human weaknesses, Andrew Fiala charts the perennial history of tyrannical takeovers and the masses who support them and ultimately suffer under their rule. Ultimately, Fiala also points to a solution: Knowing the cyclical nature of tyranny, we can build safeguards against our worst inclinations and keep alive the freedoms our founding fathers envisioned for this nation.

Dynamics of Deep Time and Deep Place Laura Doyle, Simon Gikandi, Mwangi wa Githinji, 2025-04-10. Dynamics of Deep Time and Deep Place comprises one volume in an unprecedented three-volume set collectively subtitled Decolonial Reconstellations. Together with Volume Two, Dissolving Master Narratives, and Volume Three, Reconceiving Identities in Political Economy, it gathers thinkers from across world regions and disciplines who reconfigure critical global thought. Collaboratively conceived, the volumes are founded on the observation that we cannot fully uproot the epistemological material violence of coercive systems nor fully re-imagine more ethical visions of planetary community without shared attention to the deeper histories of place and peoples that shape the present. Accordingly, the volumes gather social scientists and humanists, Indigenous and non-Indigenous scholars, and intersectional and materialist thinkers who

reconceptualize longue dure history and its afterlives They engage in the dual project to dismantle eurocentric colonial androcentric frameworks and to make visible the legacies of care and creative world making that have sustained human communities Uncovering pasts that are as complex and dynamic as the present the contributors brilliantly transform notions of temporality relationability polity conjuncture resistance and experimentation within histories of struggle and alliance They richly decolonize political imaginaries The co editors introductions articulate fresh frameworks of deep place and deep time freed from eurocentric modernity paradigms indicating pathways toward decolonial collaboration and institutional change Decolonial Reconstellations offers invaluable resources for researchers and teachers in decolonial postcolonial anti colonial and Indigenous studies and will also strongly appeal to feminist anti racist Marxist and critical theory scholars across disciplines
