Queens of Academe Karen W. Tice, 2012-03-09

Universities are unlikely venues for grading bodies beauty poise and style Nonetheless thousands of college women have sought not only college diplomas but campus beauty titles and tiaras throughout the twentieth century and the cultural power of beauty pageants continues into the twenty first In Queens of Academe Karen W Tice asks how and why does higher education remain in the beauty and body business and with what effects on student bodies and identities Drawing on archival research and interviews as well as hundreds of hours observing college pageants on predominantly black and white campuses Tice argues the pageants help to illuminate the shifting iterations of class race religion culture sexuality and gender braided into

campus rituals and student life Moving beyond a binary of objectification versus empowerment Tice offers a nuanced analysis of the making of idealized collegiate masculinities and femininities and the stylization of higher education itself
