Notes

¹ Test scores, like other measurements, are not perfectly precise. The confidence bands around test scores mark the ranges in which the test taker's true scores probably lie. The diamond shapes and shading show the test taker's true scores are more likely to be their reported scores (in the second column) than the other scores in the confidence band.

² The percentile ranks of scores are the percentages of test takers who received the same scores or lower scores. The percentile ranks are updated on May 1 every year to reflect the results from the three most recent previous calendar years.

³ For the four sections, non-overlapping confidence bands show a test taker's likely strengths and weaknesses. Overlapping confidence bands suggest that there are not meaningful differences in performance between sections.

MD,2022-03-29 American healthcare is at risk as radical politics increasingly supplant proven methods for the admission and training of medical students These changes in medical education and practice threaten to dramatically alter the relationship between doctors and patients In the aftermath of the death of George Floyd in 2020 medical schools across the country raced to adopt increased diversity mandates and anti racism training Based on the false charge that the healthcare system is biased against minority groups medical deans and trustees rushed to institute sweeping reforms that will dramatically reduce the quality of medical training and upend the traditional doctor patient relationship According to Dr Stanley Goldfarb a longtime medical researcher and educator with extensive clinical experience these changes coincide with already lowered standards such as grade inflation and demands for socially relevant curricula that have nothing to do with the care of actual patients In this coruscating lament for the decline of American medicine Goldfarb debunks the myth of a racist healthcare system and shows how elevating diversity above merit will produce substandard healthcare for all Americans regardless of race

[Pandemic Spotlight](#) Ian Hanomansing, 2021-10-16 Eminent CBC journalist Ian Hanomansing profiles the Canadian doctors who stepped up to guide the nation through its worst medical crisis in a century Most medical doctors are accustomed to living lives of quiet dedication far from the public eye What is it like for conscientious professionals like them when a country panicked by pandemic is suddenly beating down their doors desperate for answers One of the remarkable features of the Covid 19 pandemic is the strength and compassion of the previously low profile doctors who took to the public stage to lead the bewildered nation through the pandemic counteracting misinformation and articulating the most up to date medical advice on avoiding infection and reducing viral transmission British Columbia's Provincial Health Officer Dr Bonnie Henry attracted international attention for her calm empathetic and evidence based approach Ontario infectious disease specialists Dr Zain Chagla and Dr Sumon Chakrabati advocated passionately for effective measures within the South Asian community disproportionately affected by the virus Dr Lisa Barrett and her infectious disease colleagues at Dalhousie University lobbied to set up rapid testing in places like bars sports centres and university campuses in order to detect those unwittingly spreading the virus and to provide an early warning of potential outbreaks Hanomansing captures the perspective and insights of doctors from coast to coast who accepted roles as

public advocates and advisors exploring the impact of unaccustomed celebrity as well as the skepticism resistance and even hostility that sometimes went as far as death threats from Covid deniers Few of the stories to come out of the pandemic are as inspiring as this one of the doctors scientists and health officials who transcended their accustomed roles to become public symbols of trust and hope As they prepare to return to their private careers they respond to Hanomansing s invitation to detail lessons learned and measures that need to be taken to improve the response to future deadly pandemics All author royalties from sales of the book will go to UBC s Centre for Health Education Scholarship
