Ebook: Urban Economics O'SULLIVAN,2012-01-16 Ebook Urban Economics *Urban Land Economics* Jaime Luque,2015-03-28 This book covers the main aspects of regional and urban economics and presents state of the art theories in a comprehensive and concise way The book will be of interest to undergraduates in business and economics and covers specific areas such as real estate urban and regional planning and geography and development studies **Fundamentals of Urban Geography** Dr. Anoop Kumar Singh,2021-09-11 Urban geography forms the theoretical basis for a number of professions including urban planning site selection real estate development crime pattern analysis and logistical analysis There are essentially two approaches to urban geography The study of problems relating to the spatial distribution of cities themselves and the complex patterns of movement flows and linkages that bind them in space Studies in this category are concerned with the city system Secondly there is the study of patterns of distribution and interaction within cities essentially the study of their inner structure Studies in this category are concerned with the city as a system A succinct way to define urban geography that recognizes the link between these two approaches within the subject is then that urban geography is the study of cities as systems within a system of cities Cities differ in their economic makeup their social and demographic characteristics and the roles they play within the city system These differences can be traced back to regional variations in the local resources on which growth was based during the early development of the urban pattern and in part the subsequent shifts in the competitive advantage of regions brought about by changing locational forces affecting regional specialization within the framework of the market economy Recognition of different city types necessitates their classification and it is to this important aspect of urban geography that we now turn The book covers basic aspects of the subject provides an example of a student research report This book provides a separate chapter for each aspect of the subject Contents Human Migration Housing and Slums Urban Ecology Urban Housing Architecture of Housing Geographic Information System Geography and Three Space Dimensions Cultural Environmentalism The Issue of Environmentalism Ecological Issues of Farming **Urban Economics** Arthur O'Sullivan,1996 Bringing urban issues into a modern microeconomic framework this work uses basic economic analysis to explain why cities exist where they develop how they grow and how various activities are arranged within them Census data is incorporated into the text and used in charts and tables Reconstructing Urban Economics Franklin Obeng-Odoom,2016-08-15 Neoclassical economics the intellectual bedrock of modern capitalism faces growing criticisms as many of its key assumptions and policy prescriptions are systematically challenged Yet there remains one field of economics where these limitations continue virtually unchallenged the study of cities and regions in built environment economics In this book Franklin Obeng Odoom draws on institutional Geogist and Marxist economics to clearly but comprehensively show what the key issues are today in thinking about urban economics In doing so he demonstrates the widespread tensions and contradictions in the status quo showing how to reconstruct urban economics in order to create a

more just society and environment      Planning within Complex Urban Systems Shih-Kung Lai,2020-12-17 Imagine living in a city where people could move freely and buildings could be replaced at minimal cost Reality cannot be further from such Despite this imperfect world in which we live urban planning has become integral and critical especially in the face of rapid urbanization in many developing and developed countries This book introduces the axiomatic experimental approach to urban planning and addresses the criticism of the lack of a theoretical foundation in urban planning With the rise of the complexity movement the book is timely in its depiction of cities as complex systems and explains why planning from within is useful in the face of urban complexity It also includes policy implications for the Chinese cities in the context of axiomatic experimental planning theory      **Research Handbook on Housing, the Home and Society** Keith Jacobs,Kathleen Flanagan,Jacqueline De Vries,Emma MacDonald,2024-08-06 This dynamic Research Handbook explores key perspectives topics and methodologies used to understand housing the home and society Pairing social theory with a broad range of case studies from the Global North and South it offers a unique insight into the field      **Distributional Effects of Environmental and Energy Policy** Don Fullerton,2017-05-15 Many effects of environmental and energy policy are likely to disproportionately burden those with low income First it raises the price of fossil fuel intensive products that constitute a high fraction of low income budgets like gasoline heating fuel and electricity Second the handout of pollution permits to firms provides value to those who own them Third low income individuals may place more value on food and shelter than on improvements in environmental quality so high income individuals may get the most benefit of pollution abatement Fourth air quality improvements may raise the value of houses owned by landlords rather than helping renters These effects might all hurt the poor more than the rich This book brings together the seminal economics literature that studies whether these fears are valid and whether anything can be done about them      *Entrepreneurial Urban Regeneration* Rezart Prifti,Fatma Jaupi,2020-11-15 In today s world towns and cities dynamically develop over time and that s why urban regeneration is a widely experienced phenomenon How can Business Improvement Districts BIDs create necessary conditions for the development of these phenomena What is the role that BIDs have in entrepreneurial urbanism supporting SMEs city marketing and city branding These are questions examined in this volume in an effort to provide an extensive analysis of business improvement districts Enriched with an analysis of various case studies including South Africa Ontario Tokyo Barcelona Slovenia and with an in field analysis of a cultural heritage site Korca Albania the book analyses the importance benefits and impacts of this kind of organization It highlights the social economic and ecologic challenges to the historic city markets today which led to their rapid stagnancy This book offers a practical and structured guide of the concept of Business Improvement Districts and highlights the best practices for management financing and organizing It sheds light on the impacts and benefits of business improvement districts offering conclusions about their influence on the future improvement of cultural and urban sites It will be of value to researchers academics professionals and students in the fields of

management organizational studies strategy and sustainable development of tourism districts      *Network Theory and Agent-Based Modeling in Economics and Finance* Anindya S. Chakrabarti, Lukáš Pichl, Taisei Kaizoji, 2019-10-23 This book presents the latest findings on network theory and agent based modeling of economic and financial phenomena In this context the economy is depicted as a complex system consisting of heterogeneous agents that interact through evolving networks the aggregate behavior of the economy arises out of billions of small scale interactions that take place via countless economic agents The book focuses on analytical modeling and on the econometric and statistical analysis of the properties emerging from microscopic interactions In particular it highlights the latest empirical and theoretical advances helping readers understand economic and financial networks as well as new work on modeling behavior using rich agent based frameworks Innovatively the book combines observational and theoretical insights in the form of networks and agent based models both of which have proved to be extremely valuable in understanding non linear and evolving complex systems Given its scope the book will capture the interest of graduate students and researchers from various disciplines e g economics computer science physics and applied mathematics whose work involves the domain of complexity theory      Theme Cities: Solutions for Urban Problems Wayne K.D. Davies, 2015-03-23 This book reviews a series of new urban ideas or themes designed to help make cities more liveable sustainable safe and inclusive Featuring examples drawn from cities all over the world the various chapters provide critical assessments of each of the various approaches and their potential to improve urban life New Urbanism creating new areas based on a more humane scale with neighbourhood cohesion Just Cities creating more fairness in decision making so all residents can participate and benefit Green Cities helping places become greener with environmental rehabilitation and protection Sustainable Cities avoiding the waste of resources and harmful pollution in settlements Transition Towns developing local initiatives for more sustainable actions Winter Cities making cities in cold climates more comfortable and enjoyable Resilient Cities strengthening cities to better enable them to withstand natural hazards Creative Cities supporting cultural industries and attracting talented individuals Knowledge Cities creating renewing and spreading knowledge and innovation Safe Cities ensuring that citizens are better protected against criminal actions Healthy Cities making improvements in the health of people in cities Festive Cities rediscovering the utility of festive events in settlements Slow Cities enhancing locally unique activities such as local cuisines and community interactions This volume offers a host of approaches designed to give a new direction and focus to planning policies helping readers to fully understand the advantages and disadvantages of each potential idea It seeks to solve the many current problems associated with urban developments making it a valuable resource for university and college students in urban geography urban planning urban sociology and urban studies as well as to planners and the general public      **Residential Real Estate** Anupam Nanda, 2019-03-20 Residential Real Estate introduces readers to the economic fundamentals and emerging issues in housing markets The book investigates housing market issues within local regional national and international contexts in

order to provide students with an understanding of the economic principles that underpin residential property markets Key topics covered include Location choice in urban areas Housing supply and demand Housing finance and housing as an asset class Demographic shifts and implications for housing Sustainable homes and digitalisation in housing Drawing on market level information readers are encouraged to recognise the supply and demand drivers and modelling of dynamic housing markets at various spatial scales and the implications of trends within an urban and regional context e.g urbanisation ageing population migration digitalisation With research based discussions and coverage of relevant literature this is an ideal textbook for students of residential real estate property and related business studies courses at UG and PG levels as well as a reference book with research topics for researchers This book will also be of interest to professionals and policymakers

Arestis, P. Mooslechner, Karin Wagner, 2009-11-18 Housing finance structures and Institutional and regulatory fiscal aspects in housing have changed significantly in recent years This book examines the development in housing markets in Europe and the US and looks at ways to make housing more affordable and housing market developments more stable **Economic Incentives in Sub-Saharan African Urban Planning** Kwasi Gyau Baffour Awuah, 2021-04-19 This book explores incentives capable of enhancing the effectiveness of urban planning systems in Sub Saharan Africa using economic theory as a framework It argues that urban planning is fundamental to the achievement of sustainable and resilient cities but against the backdrop of rising levels of urbanisation and growth poverty informal development and climate change such systems are failing to be promoted and successfully maintained in the region Across ten chapters it analyses the connection between urban planning and socio economic development indicators of effective urban planning systems and the role and influence of incentives with real world evidence It develops quantitative models to estimate the costs and benefits of urban planning systems focussing on the developing world where organised data is less accessible Using Ghana as a case study it demonstrates a step by step approach on how to implement the quantitative models discussed Economic Incentives in Sub Saharan African Urban Planning will be useful reading for researchers policy makers development agencies and students in urban planning sustainable development and economics Regional and Urban Economics Harry Ward Richardson, 1978 **Urban**

**Planning and the Housing Market** Nicole Gurran, Glen Bramley, 2017-05-31 This book re-examines the role of urban policy and planning in relation to the housing market in an era of global uncertainty and change. The relationship between planning and the housing market is a contested problem across research, policy and practice. Problems with housing supply and affordability in many nations have been linked to planning system constraints, while the global financial crisis has raised new questions about the role of urban planning, regulation and processes in responding to housing market trends. With reference to international cases from the United Kingdom, the United States, Ireland, Hong Kong and Australia, the book examines how different systems of urban planning and governance address complex and dynamic housing market trends. It also offers practical guidance on how urban planning can support an efficient supply of appropriate and affordable homes in preferred locations. A detailed study which explains and decodes the workings of the planning system and housing market, this book will be of particular interest to scholars of human geography and urban planning, as well as housing policy makers and practitioners. **Freight Transport Planning and Logistics** Lucio Bianco, Agostino La Bella, 2013-03-09 Improvements in the performance of a freight transport system can be achieved either through technological innovation or by using advanced planning tools. This volume includes contributions on planning which cover the following topics: analysis of current trends in developed countries; demand analysis and forecasting; flows simulation and prediction; shipment and delivery problems; regulation problems; investment evaluation. Papers consider such applications as warehouse location, crude oil transportation, newspaper distribution, the trucking industry, rail planning and seaport systems. Transport issues in North America and Italy are described and compared. The papers in this volume are revised versions of contributions to the International Seminar on Freight Transport Planning and Logistics held in Bressanone, Italy, in July 1987.
