Discipline examines how seemingly discrete school discipline policies and practices constitute a particular grammar Removal Resistance and Reform Weaving numeric data with portraits of students and school practitioners the authors detail a nuanced landscape of school discipline in Alabama and its anti Black foundations The removal of Black students can be traced to the antebellum construction of Blackness as criminal deviant and deserving of punishment A focus on resistance centers the agency that students and practitioners exercise despite anti Black removal An exploration of specific reform efforts emphasizes that even the most well intentioned and well organized reforms are limited when the removal of students remains an option for practitioners The authors end with an appeal to educational stakeholders to repair the harms that these anti Black policies and practices inflict on students and communities and thus move towards repairing the damage that white supremacy inflicts on everyone s humanity
