Performance Management Systems Chiara Demartini, 2013-08-04

This book presents an analysis and a critical discussion on performance management systems It seeks to advance the current state of knowledge in the subject by introducing a holistic performance management system the loosely coupled performance management system This new system presents a framework to leverage the systemic relationships among already established performance management mechanisms The author contends that loosely coupled performance management systems fulfill two different objectives namely they assure control and foster innovation Such a comprehensive approach to management control provides managers of economic organizations with an overarching architecture for the design diagnosis and effective use of performance management systems

Industrial Research Performance Management Tatjana

Samsonowa, 2011-11-19 Managers are increasingly concerned with the typical methods available for organizational performance measurement and control Research into performance measurement within the field of innovation management has been variously approached through frameworks for performance measurement in general for example the Balanced Scorecard by Norton and Kaplan R D performance management and surveys on in use Key Performance Indicators KPIs It is striking however that almost no research has focused explicitly on the performance measurement of research activities or indeed tried to develop a systematic approach to setting KPIs for specific research goals This work in co operation with ABB Research Deutsche Telekom AG Laboratories EMC2 Advanced Technology Solutions IBM Research Intel Research Microsoft Research Philips Research and SAP Research develops a systematic approach to performance measurement for industrial research organizations in innovation driven companies The following questions are addressed 1 Which research goals do research departments have 2 Which KPIs do they use to monitor the achievement of these goals 3 Is there a systematic best practice approach to selecting KPIs for performance goals The outcome is a complete set of eleven performance clusters such

as the transfer of research results to the development or other organizational departments and each cluster has its own set of KPIs The eleven clusters are Technology Transfer Future Business Opportunities Technical Achievements Intellectual Property Operational Excellence Talent Pool Image Publications Presence in Scientific Community Collaboration with Academia Collaboration with Partners and Customers This work led to the creation of the Institute for Industrial Research Performance Management that provides ongoing research and insights for managers of industrial research organizations
