Braille Literacy Freddie L. Peaco, 2004 [A Field Guide for the Sight-Impaired Reader](#) Andrew Leibs, 1999-12-30 The first reference book written for the sight impaired student and those who serve their needs A Field Guide for the Sight Impaired Reader explains how to locate obtain and integrate all forms of aid to construct a world of reading equal to that of the fully sighted reader It profiles the major blind service organizations explores specialized formats such as Braille large print and electronic texts and shows what technology readers require and where to find it It provides comprehensive lists of audio and large print publishers a state by state listing of resource agencies for the blind and valuable internet resources to assist students and their teachers and librarians in obtaining the texts they need to succeed in both academic and pleasure reading Beginning with thorough coverage of the national organizations in place for visually handicapped readers and how they can assist both students and librarians A Field Guide for the Sight Impaired Reader outlines the types of technology available to readers and the companies that manufacture it Available software braille resources large print resources and internet web sites are all discussed in detail with contact information Also included are reading strategies for a variety of academic subject areas a detailed listing of state resources with addresses phone numbers and web sites an exhaustive list of audio publishers and a list of books compiled from recommended reading lists such as the American Library Association s Outstanding Books for the College Bound A discussion of the Americans with Disabilities Act and its impact on libraries is provided as well as funding sources for librarians who want to provide more materials and technology for their sight impaired patrons than their budgets might allow With the encouragement and resources provided here sight impaired students who felt the world of reading was closed off to them can now create a reading life as rich as that of any fully sighted student **Braille Literacy** ,1995 **There Plant Eyes** M. Leona Godin, 2022-08-30 From Homer to Helen Keller from Dune to Stevie Wonder from the invention of braille to the science of echolocation M Leona Godin explores the fascinating history of blindness interweaving it with her own story of gradually losing her sight A thought provoking mixture of criticism memoir and advocacy The New Yorker There Plant Eyes probes the ways in which blindness has shaped our ocularcentric culture challenging deeply ingrained ideas about what it means to be blind For millennia blindness has been used to signify such things as thoughtlessness blind faith irrationality blind rage and unconsciousness blind evolution But at the same time blind people have been othered as the recipients of special powers as compensation for lost sight from the poetic gifts of John Milton to the heightened senses of the comic book hero Daredevil Godin who began losing her vision at age ten illuminates the often surprising history of both the condition of blindness and the myths and ideas that have grown up around it over the course of generations She combines an analysis of blindness in art and culture from King Lear to Star Wars with a study of

the science of blindness and key developments in accessibility the white cane embossed printing digital technology to paint a vivid personal and cultural history A genre defying work There Plant Eyes reveals just how essential blindness and vision are to humanity s understanding of itself and the world
