

Part B: Long Essay Questions

Students will choose one of three long essay questions to answer. The long essay requires students to demonstrate their ability to use historical evidence in crafting a thoughtful historical argument. In the following questions, students will analyze an issue using the reasoning skill of continuity and change over time.

The three questions focus on the same reasoning skills but apply them to different time periods. This allows students to choose which time period and historical perspective they are best prepared to write about.

Question 2: In the period before 600 B.C.E., the adoption of agriculture had significant social, economic, and demographic effects.

Develop an argument that evaluates how the adoption of agriculture in this time period affected the development of human societies.

Question 3: In the period circa 400–1450 C.E., the decline and reconstitution of empires in regions such as the Mediterranean, Middle-East, and East Asia, affected the expansion or decline of cities across Afro-Eurasia.

Develop an argument that evaluates how the process of decline and reconstitution of empires led to changes in urban development in Afro-Eurasia in the period circa 400–1450 C.E.

Question 4: In the period 1950 to 2001, scientific and technological innovations led to advances in communication, transportation, and industry that transformed the world's economy.

Develop an argument that evaluates how globalization transformed the world's economy during this time period.
