disadvantaged and vulnerable parts of the population are important concerns which were addressed by studies the findings of which are presented in this report These findings suggest that the domestic consumption of fish in Viet Nam is probably higher than previously assumed Given the projected strong economic growth over the coming years it must be expected that local consumer demand will continue to expand At the same time the export-oriented fish processing industry will result in an increased demand for raw materials This substantial future demand for safe and high quality fish products can only be met if efficient marketing arrangements are in place
