Management provides students and managers with a practical guide to managing units in hospitality retail organizations. Customers rely on a particular chain of hotels, restaurants or pubs to provide the same level of service and environment across the board. This standardised service provides the customer with the security of knowing what to expect from that particular organisation. However, this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market. There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit. Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit. Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text.

Bartenders' Manual Harry Johnson, 2018-03-16. First published in the 1860s, Harry Johnson's Bartenders Manual is part of the classic bar books and one of its oldest exemplars. The author has been one of the first bartenders who not only had general and wise thoughts about his profession, he also committed his experiences and opinions to paper and wrote a teaching book for beginners and professionals. Doing this, he laid the foundation for following generations and stands beside Jerry Thomas at the beginning of a long list of famous bartenders. In his book, Harry Johnson carries the reader into times where it was obviously necessary to remind bartenders not to chew on a toothpick or a cigar when on a job, interview, not to spit on the floor or pursue other bad habits. He gives advice how to conduct a bar as well as how to treat employees and guests, how to handle beer casks and wine bottles, what stock is needed in a bar or restaurant, how to keep the business books and much more. The second half of the book contains recipes for cocktails, punches, bowls and other drinks famous in USA and Europe during this time. There you can also find the presumably first mention of the Martini.
