Introduction to Early Childhood Education Marian Marion, 2010 Armed with the mantra knowledge before action this introduction to early childhood education allows teachers to first understand the development of the whole child and then to plan an environment and curriculum that will allow them to learn and thrive Using a largely developmental approach this first edition text explores both time honored theories of early childhood development and current models and modern research in the field Part One of the text discusses the history and theories of childhood development while Part Two instructs teachers how to support children s emotional social cognitive and physical development The final section of the book explains how to

assessment and guidance to support children and how to implement developmentally appropriate curriculum in the classroom This text is supplemented with a number of features and ancillaries that make learning easier for students and teaching easier for instructors Students will benefit from the many boxed activities and aides as well as by the online features contained in MyEducationLab Teachers may take advantage of the online instructors guide online test bank numerous videos and PowerPoint slides

Regulatory Problems and Disorders in Early Childhood: Aetiology, Contextual Factors, Developmental Outcomes and Pathways, and Treatment Options Anna Katharina Georg, Ayten Bilgin, Julia

Jaekel,2025-01-08 Regulatory problems defined as excessive crying sleeping or feeding problems are among the most common concerns of parents with children 0 5 years old These problems are typically understood within the context of the parent child relationship however the complex underlying mechanisms that explain the occurrence and continuation as well as long term outcomes of regulatory problems are still poorly understood Despite some promising treatment options important knowledge gaps remain to be addressed which will inform evidence based practice for services of children aged 0 5 With this Research Topic we aim to bring together research from different countries and from multidisciplinary research backgrounds on the topic of regulatory problems and disorders We particularly encourage research that focuses on observed parent child interactions in relation to regulatory problems We view regulatory problems as a transdiagnostic biopsychosocial concept covering excessive crying sleeping and or feeding and eating problems However studies with a focus on any of these problems are also encouraged
