Report Writing for Criminal Justice Professionals Larry S. Miller, John T. Whitehead, 2014-10-13 The criminal justice process is dependent on accurate documentation Criminal justice professionals can spend 50 75% of their time writing administrative and research reports Report Writing for Criminal Justice Professionals Fifth Edition provides practical guidance with specific writing samples and guidelines for providing strong reports Much of the legal process depends on careful documentation and the crucial information that lies within but most law enforcement security corrections and probation and parole officers have not had adequate training in how to provide well written accurate brief and complete reports Report Writing for Criminal Justice Professionals covers everything officers need to learn from basic English grammar to the difficult but often ignored problem of creating documentation that will hold up in court This new edition is updated to include timely information including extensive coverage of digital reporting updates on legal issues and privacy rights and expanded coverage of forensics and scientific reporting

Psychology and Policing Neil Brewer, Carlene Wilson, 2013-06-17 Psychological theory and research have much to contribute to the knowledge and skill bases underlying effective policing Much of the relevant information however is dispersed across a variety of different psychological and criminal justice policing journals and seldom integrated for those applied psychologists interested in policing issues or for police policymakers administrators and others working in the criminal justice area who are not familiar with the psychological literature Designed to accommodate the needs of these different groups this book addresses both operational policing issues and issues relevant to the improvement of organizational functioning by providing integrative reviews of psychological theory and research that deal with effective policing It illustrates how the theory and research reviewed are relevant to specific policing practices These include eyewitness testimony conflict resolution changing driver behavior controlling criminal behavior effective interviewing and techniques of face reconstruction The volume's readable style makes it accessible to a diverse audience including undergraduate and postgraduate students in forensic organizational applied psychology criminal justice and police science programs and police administrators and policymakers It will also

interest psychologists whose primary focus includes policing and criminal justice issues The book should draw attention to the often unrecognized and valuable contribution that mainstream psychology can make to the knowledge base underpinning a wide variety of policing practices     Statistics for Social Understanding Nancy E. Whittier,Tina Wildhagen,Howard J. Gold,2024-08-06 Statistics for Social Understanding introduces statistics as it s used in the social sciences as a tool for advancing understanding of the social world The authors provide thorough coverage of social science statistical topics a balanced approach to calculation and step by step directions on how to use both SPSS and Stata software giving students the ability to analyze data and explore exciting questions In Depth boxes encourage critical thinking by tackling tricky statistical queries and each chapter concludes with a chapter summary a section on using Stata a section on using SPSS and practice problems All problems have been accuracy checked by an outside panel of reviewers Readily available datasets for classroom use include material from institutions such as the American National Election Study General Social Survey World Values Survey and the School Survey on Crime and Safety Statistics for Social Understanding is accompanied by a learning package written entirely by author Tina Wildhagen that is designed to enhance the experience of both instructors and students
