

CASE STUDY TEMPLATE

What is a case study?

A case study is an individual's story. It tells the reader how Save the Children's work has made a difference in the life of a child or his/her family.

1. Background: Please provide basic information about the interviewee(s).

Name(s), gender, age:	Mama Amina a Female aged 25 years
Location – village/town, district/province and country:	Mama Amina is a resident of Arbanqeramso location of wajir east constituency in Wajir County Northern Kenya.
Keywords – themes:	BEHAVIOUR CHANGE COMMUNICATION

2. Summary: Please describe the interviewee's day-to-day life and environment.

Amina hails from a very insolvent family which has put them in an abject situation and the kind of life they are living can't be compared to that of their neighbours since they never owned a source of wealth. She came to settle in Arbaqheramso in 2011 during the prolonged Horn of Africa drought that swept away their livestock. Her husband is a small scale herder and most of the time is absent from home looking after other people's shoats. They live in a small makeshift home.

3. The story: Interviewee's story in his or her own words. Please use exact words with direct quotes.

Amina who is a mother of two boys and one girl, is among the beneficiaries of the County Department of Health (CDH) and Save the Children Health and Nutrition integrated interventions as well as a member of a Mother to Mother Support Group (MTMSG) who has attended several health and nutrition promotion sessions and short trainings such as Participatory Hygiene and sanitation transformation (PHAST), Community Led Total sanitation (CLTS) and others that stimulated her mind to realize the importance of hygiene and sanitation as a preventive measure. She said, "I have been part of the communities triggered by Sub-County public health officers together with Save the Children staff and I feel that there is need to change." She said, "Our source of water is a shallow well and when it rains it usually floods and fills with water to the brim. However, we have been consuming the water without boiling thus our children and us becomes sick due to unhygienic conditions. My gratitude goes to Save the Children and the Health Department who have used their time and resources to empower us at the grass root level." Immediately after CLTS triggering in October 2014, Amina started to construct a pit latrine in her compound as she vowed never to go back to open defecation. On the completion of the latrine Amina welcomed her neighbours to share with her with no string attached to it but exhort them to construct one to elude slavery and advocate for Open Defaecation Free environment (ODF).

"Hooran kathitha ayaan isku ceelin jiray muusqull laan awgeed ,gumeerka ayaana eehanunu jiray waxana kacabsan jiray cuuthur kathitha xageed inn uu igudacaa lakkiin xada waan reystay maarkan musqushi distaay" Amina retorts. ("Used to retain urine in my bladder for long hours due to lack of toilet and I had put myself in the risk of getting Urinary Tract Infections(UTIs) but now I am relieved since I own a personal latrine" she also said that *'Niin cessantisa ayaa ceelgeysa'*" It is only your belongings that can quench your thirst")

Buzzell, Robert Piazza, 1994 This text provides lively and instructive true life cases of challenging situations faced by teachers in traditional and special education classrooms This case format is based upon the Harvard Business School case based approach to instruction in which educational students decision making skills are developed through analysis of practicing professionals problems portrayed in case studies *Practical Cases in Special Education for All Educators* Mary Konya Weishaar, Victoria Groves Scott, 2005-06 Practical Cases in Special Education for all Educators focuses in on how general educators can and should become active participants in the education of children who have disabilities by providing students with much needed practical applications of how general and special educators must work together and become involved in the education of all children Chapter 1 explains the Case Study Approach of the text

and provides a sample case and framework for the rest of the text. Each following chapter is categorically based on a specific disability and presents two in depth cases which are written as first person stories from various school professionals, parents, and students. Once the characteristics associated with particular disabilities are discussed and identified, the text goes on to explore how educators used applied theory and problem solving skills to craft a practical solution for each scenario. Chapter Opening Case Coding Boxes inform the reader of the type of case that they will be presented with, as well as the grade level of the student in the case. A List of Characters that readers will meet in the case are presented at the beginning of each case. Questions to Ponder appear within each case after the first main section to give students a place to reflect on the premise before delving more deeply into the story. Case Study Framework Questions appear at the end of each case to help students further explore and analyze the information presented in the case. These questions do not always have a right or wrong answer. Thinking Critically about the Case are questions included at the end of each case that ask students to think critically about what they have read. The questions in this section require summarization and evaluation. Activities at the end of each case give students an assignment to do in or outside of class to further their exploration of each case. Resources for Further Investigation conclude each case chapter and give students print and web based resources to explore. Appendix Individual Education Plan Drafting Activities and Templates provides several valuable sample IEP templates that students can use as part of their assignments to get practice creating IEPs. Matrix of cases appears at the end of the text and offers a listing of all the cases broken out by type of case, disability category, and age/grade level.

Case Studies in Applied Behavior Analysis for Individuals with Disabilities (2nd Ed.) Keith Storey, Linda Haymes, 2023-01-24

This book responds to a critical need for highly qualified personnel who will become exemplary professionals because of their advanced knowledge, skills, and experiences in working with students and adults that have varying disabilities, including Autism Spectrum Disorders (ASD). Since Board Certification for behavior analysts was introduced, there has been an expansion of training programs in Applied Behavior Analysis to meet the demands from school districts, health insurers, and families. In spite of these developments, a case studies book has not been available that uses the Behavior Analyst Certification Board Task List Fifth Edition (BACB) guidelines for educating individuals receiving their BCBA or for those in the field such as teachers and service providers. The goal of this book is to fill that need. In this newly revised second edition, eighteen case studies are provided: case studies with complete analysis, case studies with partial analysis, and case studies without analysis. The first six cases present a complete analysis which allows the reader to analyze and develop a comprehensive Positive Behavior Support Plan containing detailed answers and supporting data systems. The second six case studies include the areas from the BACB Task List and the items are most relevant for analysis but the analysis is not complete. This enables the reader to complete the analysis themselves which will promote skill building. The final six case studies do not contain an analysis or guideline. This allows the reader to further develop their skills by creating their own guidelines for analysis and implementing their plan. The use of this text will improve

the comprehensive analysis and coverage of the developing supports for individuals with disabilities provide direct applicability to applied settings and the ability to use the case studies for assignments and or exams The format readability and detailed description of instructional methodology makes this text a valued resource for instructors and behavior analysts responsible for improving the skills of people with disabilities
