changing in ways that might encourage or further inhibit organizing Ikeler conducted interviews at New York City locations of two iconic department stores Macy's and Target Much of the book's narrative unfolds from the perspectives of these workers in America's most unequal city When he speaks to workers Ikeler finds that the Macy's organization displays an adversarial relationship between workers and managers and that Target is infused with a teamwork message that enfolds both parties Macy's workers identify more with their jobs and are more opposed to management yet Target workers show greater solidarity Both groups however are largely unhappy with the pay and precariousness of their jobs Combined with workplace generated feelings of unity and resistance these grievances provide promising inroads to organizing that could help take the struggle against inequality beyond symbolic action to real economic power **Gaming Cage Cashier**
