 3. Are there any differences for non-native writers when writing technical and academic texts in English?
3. To provide an answer to these questions, we first examine some results of applied LSP and writing research. In the second part of the paper, randomly selected expert and student texts are considered which were taken from the fields of linguistics, medicine and computer science. Finally, the paper provides some conclusions for the teaching of writing in both classroom and corporate environments. In other words, the present paper
