*Writing First with Readings* Laurie G. Kirsznér, Stephen R. Mandell, 2005-09-28. *Writing First* teaches the basics of writing and grammar in the context of students' own writing. Along with a comprehensive treatment of the process of writing paragraphs and essays, it helps students develop the fundamental writing skills they need to succeed in college and beyond. By providing students with more help in the areas they most need it, grammar, ESL, and high stakes test taking, the third edition of *Writing First* better addresses the realities of the developmental writing course.

*How Students Write: A Linguistic Analysis* Laura Louise Aull, 2020-04-01. Broad generalizations about people today are a familiar feature of first-year student writing. *How Students Write* brings a fresh perspective to this perennial observation using corpus linguistics techniques. This study analyzes sentence-level patterns in student writing to develop an understanding of how students present evidence, draw connections between ideas, relate to their readers, and ultimately learn to construct knowledge in their writing. Drawing on both first-year and upper-level student writing, the book examines the discourse of students at different points in their education. It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students' choices. In focusing on sentence-level features such as hedges, perhaps, and boosters, definitely, this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas. Attention to these features can help instructors foster civil discourse, design effective assignments, and expose and question norms of higher education.
