When teachers talk about the joys of teaching, I'm pretty sure they aren't talking about report card writing. It may just rank right up there with indoor recess, yard duty, and staff meetings. But report cards don't have to be such a pain. Here are a few report card general principles, followed by my handy dandy list of editable go-to phrases...

Three Report Card Principles

1. Be Truthful but Kind

A report card's main purpose is to inform parents about their child's progress. While there should be no major surprises (BIG issues should have already been discussed with the child's parents), regardless of how well the child is doing or how poorly, the report card should be an honest reflection of that child's performance. Having said that, of course we want to word things in a way that is as positive as we can be and in a way that is encouraging, offering suggestions for improvement, rather than discouragement.

2. Follow the Magical Format

If the child is doing well overall... you are golden!!! An easy report card is one that I LOVE to do. Unfortunately, not all kids are Einsteins or angels, and we have to mention some areas that need improvement. That's when we use the magical format, which is...

The “New” Epidemic- Grading Practices Andre’ Mathews, 2016-03-16 This book is a comprehensive view on the grading practices and policies in American public schools The content of the book identifies the lack of alignment amongst the Federal State and Local Districts and the need to adopt a unified policy Educational institutions are creating their own versions of grading systems that lack integrity flawed in design hinder many students from graduating and or achieving opportunities to become a more productive citizen after high school completion

Section I The structure of the book begins with a systemic view of development by identifying the philosophical and theoretical aspects involved in the grading system

Section II The authors work then transitions to the structure of the grading system addressing the mathematical aspects of calculating a students grade point average to the teachers validity of grades

Section III This section identifies the parents role and need to understand the grade itself and its effect on the students overall outcome and class ranking

Section IV The book ends with a strong analysis of the system parental rights examples of educational disasters and schools quest for new grading systems

All in all this book takes a journey throughout the entire educational system identifying a need for change on all levels as it relates to the grading system The overall message emphasizes the parents need to be cognizant of the importance of being involved and properly motivating mentoring monitoring modeling and managing their childs educational careers

All stakeholders should walk away with a sense of ownership to the problem and an understanding that the time for change is now

The ethnic margin is widening and too many students are graduating unmarketable A grade is more than a number its a quality of life
