**Fortress Conservation and International Accountability for Human Rights**

**Violations against Batwa in Kahuzi-Biega National Park** Colin Luoma, 2022-05-05 The Kahuzi Biega National Park PNKB in the Democratic Republic of the Congo presents an existential threat to the indigenous Batwa people For millennia Batwa occupied the forests surrounding Mount Kahuzi and Mount Biega utilizing traditional ecological knowledge and sustainable practices to foster one of the most biodiverse places on the planet The creation of the PNKB in the 1970s forced Batwa from their ancestral lands rendering them deeply impoverished landless dependent and culturally disconnected When they seek to return home and access their lands and resources they are subjected to extreme violence by park authorities who treat them as trespassers poachers and enemies of conservation This report situates the serious human rights violations suffered by Batwa in the PNKB within the broader global phenomenon of fortress conservation and analyses the respective roles and accountability of the park's core international partners Ongoing violence against Batwa in the PNKB is a stark reminder of the immense human and environmental costs associated with pursuing conservation policies that prevent indigenous peoples from owning governing accessing and benefiting from their territories and resources These policies are bolstered by donors global NGOs and international organizations which enable and tacitly uphold a violent and anti indigenous status quo in the PNKB and other protected areas Donors conservation organizations and other international partners of the PNKB have failed to adequately ensure that their support did not contribute to human rights violations committed against Batwa These international partners had explicit knowledge of unresolved human rights abuses committed by ecoguards as well as threats of imminent violence against Batwa communities living inside the park Yet they continued to equip fund and train ecoguards and actively promoted the increasing militarization of the PNKB This militarization has resulted in overly aggressive policing and military style actions by ecoguards often jointly with the Congolese Army who explicitly target criminalize and brutalize Batwa At the same time the park consistently fails to meet environmental expectations and objectives Thus the PNKB represents a clear case of how fortress conservation fails both people and the environment Regrettably it is not an isolated example of flawed conservation policy Instead it is indicative of the institutional shortcomings and systemic failures inherent in the dominant ways in which conservation is pursued by states and promoted by international conservation actors in the Congo Basin and in other parts of the world

**Dark Mirror** Barton Gellman, 2020-05-19

Engrossing Gellman is a thorough exacting reporter a marvelous narrator for this particular story as he nimbly guides us through complex technical arcana and some stubborn ethical questions Dark Mirror would be simply pleasurable to read if the story it told didn't also happen to be frighteningly real Jennifer Szalai The New York Times From the three time Pulitzer Prize winner and author of the New York Times bestseller Angler the definitive master narrative of Edward Snowden and the modern surveillance state based on unique access to Snowden and groundbreaking reportage around the world Edward Snowden touched off a global debate in 2013 when he gave Barton Gellman Laura Poitras and Glenn Greenwald each a vast

and explosive archive of highly classified files revealing the extent of the American government's access to our every communication. They shared the Pulitzer Prize that year for public service. For Gellman, who never stopped reporting that was only the beginning. He jumped off from what Snowden gave him to track the reach and methodology of the U.S. surveillance state and bring it to light with astonishing new clarity. Along the way he interrogated Snowden's own history and found important ways in which myth and reality do not line up. Gellman treats Snowden with respect but this is no hagiographic account. *Dark Mirror* sets the record straight in ways that are both fascinating and important. *Dark Mirror* is the story that Gellman could not tell before a gripping inside narrative of investigative reporting as it happened and a deep dive into the machinery of the surveillance state. Gellman recounts the puzzles, dilemmas, and tumultuous events behind the scenes of his work in top secret intelligence facilities in Moscow, hotel rooms in huddles with Post lawyers and editors in Silicon Valley executive suites and in encrypted messages from anonymous accounts. Within the book is a compelling portrait of national security journalism under pressure from legal threats, government investigations, and foreign intelligence agencies intent on stealing Gellman's files. Throughout *Dark Mirror*, Gellman wages an escalating battle against unknown adversaries who force him to mimic their tradecraft in self-defense. With the vivid and insightful style that is the author's trademark, *Dark Mirror* is a true life spy tale about the surveillance industrial revolution and its discontents. Along the way, with the benefit of fresh reporting, it tells the full story of a government leak unrivaled in drama since *All the President's Men*. *Theory and Classification of Material Text Cultures* Nikolaus Dietrich, Ludger Lieb, Nele Schneidereit, 2024-10-07 The final volume in the series synthesizes the research conducted by the Heidelberg Collaborative Research Center 933 SFB 933 Systematized into six topic areas reflecting on writing layout and text image memory and the archive material transformation, sanctification, and rule and administration. The CRC scholars summarize the knowledge gained from 12 years of interdisciplinary work into 35 theses on a theory of material text cultures. *Women and Religion in the Ancient Near East and Asia* Nicole Maria Brisch, Fumi Karahashi, 2023-04-03 The recent years have seen an upswing in studies of women in the ancient Near East and related areas. This volume, which is the result of a Danish-Japanese collaboration, seeks to highlight women as actors within the sphere of the religious. In ancient Mesopotamia and other ancient civilizations, religious beliefs and practices permeated all aspects of society, and for this reason, it is not possible to completely dissociate religion from politics, economy, or literature. Thus, the goal is to shift the perspective by highlighting the different ways in which the agency of women can be traced in the historical and archaeological record. This perspectival shift can be seen in studies of elite women who actively contributed to religious gift giving or participated in temple economies or through showing the limits of elite women's agency in relation to diplomatic marriages. Additionally, several contributions examine the roles of women as religious officials and the language of worship or invocation of goddesses. This volume does not aim at completeness but seeks to highlight points for further research and new perspectives. **SOE: The Scientific Secrets** Fredric Boyce, Douglas Everett, 2011-11-08 The history of

Special Operations Executive SOE seems to spring a never ending run of surprises and here are some more This book explores the mysterious world of the tools SOE used for their missions of subversion and sabotage An often grim reality is confronted that is more akin with the world of James Bond and Q s workshop than previously believed Written by two scientists one of whom served in the SOE and one who was tasked with clearing up after it was disbanded their insider knowledge presents a clear account of the way in which SOE s inventors worked From high explosive technology to chemical and biological devices from the techniques of air supply to incendiarism from camouflage to underwater warfare and from radio communications to weaponry SOE The Scientific Secrets is a revelation about the tools that allowed the murky world of spying and spies to operate during wartime

*Contract for the International Carriage of Goods by Road* Chiara Tincani, 2022-08-31 This book discusses the intensification of international transport services as the consequence of an increasingly capillary economic integration In particular in some European countries such as Belgium the Rhine area of Germany and Denmark the application of the Geneva Convention on the carriage of goods from the case law point of view is even more thorough than that of national law Even though this is not the case for all countries the Geneva Convention is a core text both for the scientific debates on the issue and for commercial operators Therefore proposing an up to date reading of the Convention is of utmost importance from the practical point of view especially considering that thanks to the consistent application of the International Carriage of Goods by Road contract the Convention has become an essential prerequisite for the development of traffic In ten chapters this book reviews the Convention s structure and considers the case law approaches and trends of most countries belonging to the European Union It covers contracts and different negotiating models as well as compensation liability of the carrier and damages

Sketches of Ceylon and India Narayan Prasad,2020-04-30 Sketches of Ceylon and India From the Travel Notes of a Russian is the English translation a long felt desideratum of the report originally written in Russian and published in 1878 by Professor Ivan Minayev on his first trip to Ceylon India and Nepal in 1874 75 Of the three foreign trips the first trip of Ivan Minayev to the East is particularly interesting for Orientalists This trip was important both for the scholar himself and for the development of Indology as a whole This report contains not only detailed information on archaeological discoveries and description of architectural and historical monuments but a spate of interesting observations and conclusions related to the daily life of the peoples inhabiting these countries Minayev s personal pieces of evidence of those distant times based on the stable academic foundation unlike various contemporary travelogues that abound in distorted judgments and biased observations are indeed very rare and hence one cannot overestimate their value
