A Sample Qualitative Research Proposal Written in the APA 6th Style

Flow: This sample proposal is based on a composite of past proposals, selected references, and references, and material I've collected for themselves purposes - it is based roughly on fairly standard research proposal I've taught because there is no one set way of doing qualitative research proposal. Much of its design is based on the nature of the research, your preferences, and your decisions about how to describe a problem, what it is you plan to accomplish. The material in this document was adapted primarily from a descriptive proposal created by Dr. Nancy Matthews. A template is not included in this sample proposal. Introduction

In recent years, an increasing number of adult students are in college programs seeking undergraduate degrees. Many more of the year formerly accepted by the institution. In 20 years, we estimate (ages, 1980, 1985, 1990, 1995, 2000, 2005, 2010) that the per year student study up to the grade point of this session. Indeed the number of full-time adult students is still quite small, particularly at four-year colleges and universities. While universities are seeking the presence of various adults in their full-time study programs, the number of adults enrolled and students for full-time study is still small (Baker, 1980, p. 10).

It is the small number of full-time adult undergraduates that increases the demand for the degree programs that the group full-time students is given to students. In the summer period the changed dramatically in recent years, the number of adults "available" for full-time study has also changed. It includes the increased enrollment figures, as well as the declining job opportunities available in many regions of the country, have affected the number.

In addition to the loss of a job and the possible need for additional education to obtain new skills, other factors are present:

- the decision to enter the job market and the need for "fresh up" or develop new skills
- early retirement and the decision to enroll in further study
- a change in work-life balance (family, individually related needs in a career because and the corresponding need for additional education
- increased responsibility for adults particularly women to raise a child (ages, 1980)

Figure in the literature and universities with many adult students confirm that colleges and universities will have an early need to come with these other factors. Although some universities have added special counseling and assistance programs, many others cannot afford to do so. While some universities and programs offer support, many have been largely ignored. Thus the full-time adult undergraduate has been considered as a new phenomenon. The statistics for those enrolled in part-time students. Therefore, almost none of the support services and research
