Getting started

Your headset overview

Make sure you have the following items: Headset, charging cable, ear hooks, ear cushions, and user manual. The specifications may vary.

Button functions

Button	Function
	• Press and hold the power button to turn the headset on or off.
	• Press and hold for 3 seconds to answer incoming calls. • Press and hold to reject an incoming call. • Press and hold to place a call on hold. • Press and hold to switch between calls.
	• Press to adjust the volume. • Press and hold to quickly mute/unmute or on/off during a call.

Turning the headset on or off

To turn the headset on

Slide the power switch on. The blue indicator light flashes 4 times.

Turning the headset on for the first time, it will automatically enter pairing mode for approx. 3 minutes.

To turn the headset off

Slide the power switch off. The indicator light flashes blue and red three times off.

Charging the headset

This headset has a rechargeable internal battery which is non-removable. Make sure the headset is fully charged before using it for the first time.

The only charging approved charger is the one that is used to charge the headset. Using any other charger may cause damage to the headset or to your device. Use only the approved charger.

1. Connect the travel adapter to the charging cable and the headset.
2. Plug the travel adapter into a power outlet. Charging the headset lights will turn on.
3. When the headset is fully charged, the indicator light changes color. Using the headset while charging will reduce the battery life.

- Repeatedly charging and discharging of the headset over time will cause the battery performance to deteriorate. This is normal for all rechargeable batteries.
- Never make or receive calls while charging. Doing so may damage your headset from the charger and reduce the life.

Charging the headset

To check the battery level, press and hold the volume down button and the call button at the same time. Depending on the battery level, the indicator light flashes in one of the following colors.

Battery level	Indicator light color
90% - 100%	Blue
60% - 80%	Yellow
Below 20%	Red

Activating the headset light sensor

The headset has a light sensor and you can turn it on or off. If the headset detects a bright light, it will automatically turn off the light sensor.

Wearing the headset

Depending on which ear you are going to wear the headset, simply adjust the ear hook and the ear cushion.

When you use the headset, make sure the headset is worn correctly. The headset is designed to be worn on the head. The headset is not designed to be worn on the face or neck.

Turning the indicator light on or off

The headset has a light sensor that can turn the indicator light on or off. The indicator light is on by default. To turn the indicator light off, press and hold the call button for 3 seconds.

- The indicator light will turn off when the headset is turned on or off when a call is received. The indicator light will turn on when the headset is turned on or off when a call is received.

Using your headset

- Activated functions and features may differ depending on the phone type.
- Some phones, especially those that are not certified for use with the Bluetooth Special Interest Group (SIG), may be incompatible with your headset.

To ensure you get the best performance from your headset

- Keep the distance between your headset and device as small as possible and avoid placing your body or other objects in the signal path.
- If your headset and your mobile phone are not in line, move the headset or your phone.
- Keeping your headset in a case could affect its performance or keep contact to a minimum.

Pairing and connecting the headset

Pairing means a unique and encrypted wireless connection between two Bluetooth devices when they agree to communicate with each other.
