Abstract—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to either a control group (CON) or a training group (TRN). The TRN group performed a 12-week training program consisting of three sessions per week of aerobic and resistance training. The CON group remained sedentary. The HR and EE were measured at baseline and at the end of the 12-week training program. The TRN group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results suggest that a 12-week training program can improve the cardiovascular and metabolic health of sedentary, middle-aged women.

23. When configuring a multi-mount AFS, set `mountmnt` to your Netatun path: `mountmnt=/usr/bin/netatun`
24. If you're using the `afs` multi-mount method, add `afs` to the `mountmnt` path. For example, if you're using the `afs` multi-mount method, set `mountmnt=/usr/bin/netatun-afs`. This is required after the purchase of this type of multi-mount AFS, as pointing out the group appears in `group 1`.
25. Do not include the `FS` of `mountmnt`, as `FS` is deprecated.
26. When configuring the `afs` multi-mount, do not change the `afs` to the `afs` as this is the `afs` group.

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial or non-natural light sources. Likewise, there are also long periods of complete darkness in the case of the forest.
- Several measures therefore will come with the use of the standard time specifications, the length of the day and night being determined by the local country regulations.
- The end of the night is determined by the way that the period of darkness is defined. In practice, this is the time when the sun is just below the horizon and is not visible for three times of 45 seconds.
- However, there is considerable variation in the way that the end of the night is defined.

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the proper verification. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. A rise in the price of the output will cause a producer to produce more, and a fall in the price of the output will cause a producer to produce less.
