UNESCO,2013-09-24 **ENC Focus** ,2001 Teaching in the Standards-based Classroom ,2001 Virtually every national standards document every state framework and every local set of standards calls for fundamental changes in what and how teachers teach The challenge for teachers is to implement the vision for mathematics and science classrooms called for in the standards This issue describes that vision and suggests ways to use the standards mandated in your school to improve your practice to help you teach in your standards based classroom *Measuring Up to the New York State Learning Standards and Success Strategies for the State Test* ,2000 **Resources in Education** ,2000-04 **Young people, education, and sustainable development**

Peter Blaze Corcoran,Philip M. Osano,2023-09-04 Young people have an enormous stake in the present and future state of Earth Almost half of the human population is under the age of 25 If young people s resources of energy time and knowledge are misdirected towards violence terrorism socially isolating technologies and unsustainable consumption civilization risks destabilization Yet there is a powerful opportunity for society if young people can participate positively in all aspects of sustainable development In order to do so young people need education political support resources skills and hope This volume offers a global perspective on education initiatives by and for young people that promote a transition to sustainability It includes 38 essays co authored by 68 contributors from 25 nations representing a diversity of geography gender and generation The development of youth leadership has been a central concern of my professional work Young people have a lot to offer to sustainable development and should participate in planning for our planet s future This rich collection of theoretical and practical approaches captures the growing response of young people to this challenge I am particularly pleased with the attention paid to the role of often underrepresented regions of the world to the role of women and to the Earth Charter in the creating of a peaceful and sustainable future Julia Marton Lef vre Director General of IUCN International Union for Conservation of Nature and former Rector of the University for Peace This book is a rich global tapestry depicting the inter linkages among youth education and sustainable development What is particularly interesting is that it shows how education at all levels can be a powerful engine for promoting sustainability This work is an important contribution to the United Nations Decade of Education for Sustainable Development Goolam Mohamedbhai Secretary General Association of African Universities and Past President International Association of Universities This important and skillfully prepared book comes at a critical time A great strength of this volume is that it blends together theoretical and practical insights regarding education for sustainable development by and for young people It is written from diverse cultural
