Performer Marina Spiazzi, 2012 **Performer FCE Tutor** Marina Spiazzi, 2012 Delivering a Preparatory Course for The Cambridge First Certificate in English Examination by Using the Ingenio E-Learning Platform, 2011-03-24

La publicación de este volumen representa un caso relativamente insólito. Un pequeño grupo de jóvenes investigadores de menos de treinta años convence a un grupo mucho más numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies. El resultado es deslumbrante. No solo demuestran una gran capacidad organizativa sino que los resultados individuales de las aportaciones científicas son sobresalientes. Este volumen *Current Trends in Anglophone Studies* recoge una selección revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuración tripartita clásica: estudios culturales, lingüísticos y literarios. En ella caben todos aquellos que se mueven en el campo de los estudios anglofonos. Cada uno de estos campos podría haber sido suficiente para celebrar un congreso, pero parece razonable que en este tipo de encuentros tengan cabida todos. De ese modo, este volumen se convierte en un ejemplo de aproximación interdisciplinar a los estudios anglofonos. Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, sobresale la variedad de temas tratados, así como la internacionalización de los autores dentro de este apartado. Estudiantes españoles e italianos acometen estudios relacionados con la música, la pintura, el cine, la traducción, la marginalidad social o el impacto de las nuevas tecnologías en la producción artística. Si no pareciera demasiado atrevido, podría decirse que estos jóvenes estudiosos irán más allá de lo que un día ya lejano pudieron imaginar Richard Hoggard o Raymond Williams. Los estudios aquí presentados reflejan sin duda la evolución que la propia sociedad ha experimentado en estos últimos cincuenta años y exploran la relación entre las prácticas culturales, la vida diaria y los contextos económicos, políticos e históricos. No es de extrañar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua, ya que la demanda del inglés se ha incrementado de forma considerable en los últimos años. Sobresalen los análisis puramente filológicos y, sobre todo, los relacionados con el aprendizaje del inglés como segunda lengua. Por eso destacan estudios que contemplan rasgos morfológicos, léxicos o sintácticos. Sin embargo, el mayor número de participaciones hace referencia al ya citado aprendizaje del inglés como L2, tanto desde el análisis de materiales como desde la práctica oral o escrita. Las contribuciones literarias ofrecen una evaluación teórica formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinarias como interculturales. Cronológicamente, los estudios abarcan textos desde el siglo XVIII hasta nuestros días, con un acento especial en los autores más contemporáneos y en el género narrativo. En general, estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria, desde la técnica narrativa o como tal vez cabría esperar, al tratarse de estudiantes tan jóvenes, desde la aplicación de las nuevas tecnologías. Por el contrario, se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género. En definitiva, se trata de

una selecci n de art culos claramente prometedora que transmite la seguridad de que el futuro de la Filolog a Inglesa est en buenas manos y podr experimentar una positiva evoluci n en los pr ximos a os Por todo ello hay que felicitar a todos los participantes individuales y sobre todo a los organizadores del evento y editores de este volumen que han demostrado una enorme capacidad de trabajo y de saber hacer
