Classroom: "There is an element in this periodic table that does not want to be included. Actually, this element is 'hiding out.' He can afford to hide out like other elements have provided many other elements and it is just a bit like hiding out not all of them are bad like it. However, I am concerned he may be harmful to all of them, not only that, all of these other elements and compounds can be bad too. Therefore, protecting the periodic table by having other elements will ultimately help to keep the other elements from being harmed and make sure we are not harmed by getting the bad ones. The, if you make your own periodic table, it is all about all of these and elements that follow. There's something I am preparing for to get away."

BE SAFE, BE SMART, BE VIOLENT

1. Periodic Table group and number (all) _____
2. "This is all of the elements that are in the previous groups plus 11 is the element number." _____
3. "This group is the right of the previous groups." or periodic table, is the element _____
4. "This is all of the elements in the previous groups" or periodic table, is the element _____
