I have a lot of scope for improvement. I have a lot of potential both professionally and in the personal space - I need to tap it. My asthetic sense, candor and imagination help me stand out in a crowd and I need to fine tune these skills. Given my high sensitivity to stress, I tend to get very irritable and frustrated during high pressure scenarios. I am exteremly disorganized and this has really harmed me all my life. I really need to work on my organization skills. Goals To be more organized, and disciplined. I need to have a stronger work eithc, and develop strong analytical and quant skills.

I would also like to invest alot of time in reading, and wasting less time doing meaningless stuff. Reading and getting exposed to the opportunities everywhere gets me excited, and once I am excited - I am driven. Perception of others In all honesty, others view me as exteremly modest but that is because I am good at hiding my weaknesses. They respect my candor and people skills, and appreciate my input once in a while. Standards organization expects you to meet Disciplined, focused, very strong finance background, strong work ethic, working in high pressure scenarios, and having a strong sense of responsibility.

DEVELOPMENTAL PLANNING WORKSHEET Professor Randall S. Peterson DEVELOPMENT ISSUE (from GAPS analysis): The issue is that I am easily intimidated, and not focused. I tend to get distracted with my surroundings and tend to loose interest in my own ambition and agenda. I tend to get bored easily, and leave things in the middle - very impatient. EXPECTED OUTCOMES: What will be different? What could someone else observe that will change? For starters I will be more diligent, focused and orderly. This can be seen through my group participation, my in class assignments, my club involvement and my career hunt activities.

Juggling so many aspects at once will require all of the above. My quant and financial skills can really develop if I invest time, and effort in reading and understanding the material. This can also be a visible change. What will I gain by achieving the goal? What is in it for you? Happiness. Job. Personal satisfaction. Personal growth and development. WHO ELSE NEEDS TO BE COMMITTED TO THIS: What will you need to do as soon as you get back to the office to get started? Who do I need to get committed to helping me? And what is in it for them? Me, myself and I. LEARNING STRATEGIES FOR DEVELOPMENT

(use at least three of the six to make your development goal SMART) 1) Seek New Challenges/Projects Challenge PE CASE CHALLENGE Specific Action/Time/Deadline working with people in a field I have very little experience in. Personality Development P. Michiel Westenberg, Augusto Blasi, Lawrence D. Cohn, 2013-05-13 Jane Loevinger's innovative research methodology, psychometric rigor and theoretical scope have attracted the attention of numerous scholars and researchers. Empirical investigations employing Loevinger's Washington University Sentence Completion Test of ego development WUSCT have appeared with increasing frequency and total more than 300 studies. Following the publication of the first comprehensive revision of the scoring manual for the WUSCT, this volume reflects on the strengths and limitations of Loevinger's developmental model. It is divided into sections that correspond with four broad questions that can be raised about Loevinger's developmental model: What is its scope and intellectual tradition? What evidence is there for construct validity? What is its relationship to other social developmental models? What is its clinical relevance to Loevinger's model of ego development? This four-part grouping provides a framework for effectively organizing the present material and frequently the questions raised in one section are addressed in other sections as well. In the concluding chapter, Loevinger addresses some of the ideas that are proposed by the various authors. She also presents the origin of the ego development concept by recounting its history.

Lerner, Nancy Eisenberg, 2006-06-12 Part of the authoritative four-volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared. Updated and revised to reflect the new developments in the field, the Handbook of Child Psychology, Sixth Edition, contains new chapters on such topics as spirituality, social understanding, and non-verbal communication. Volume 3: Social, Emotional, and Personality Development, edited by Nancy Eisenberg, Arizona State University, covers mechanisms of socialization and personality development, including parent-child relationships, peer relationships, emotional development, gender role acquisition, pro-social and anti-social development, motivation, achievement, social cognition, and moral reasoning, plus a new chapter on adolescent development.

Personal Growth Through Adventure David Hopkins, Roger Putnam, 2013-11-26 First Published in 1994, Hopkins and Putnam hold a questioning and healthily sceptical attitude towards the theory and practice of adventure education, something they claim has received insufficient reflection by practitioners on the nature of the process of adventure education. This title outlines their claims that a clear and simple exposition of principles and consequently practice has not been well enough informed. Written to stimulate debate, the critical stance that prompted the authors' way of thinking and so ultimately the book has a great deal to do with the pervading attitudes at the Outward Bound schools.
