Education has always been an important foundation upon which I build my goals and dreams. Without education, I would not be able to achieve my greatest ambition: to help children develop to their fullest potential. I had my first encounter with behavior analysis two years ago while I was a counselor at a summer camp, and I realized then that I wanted to make a career in this field. One of my campers, Brandon, was diagnosed with ADHD. I worked with his psychologist and his mother to learn the "stoplight" technique, which I have continued using on other children with whom I work. The experience helped me realize how much progress can be made with children that are diagnosed and treated effectively.

I have also spent the past year working for Catholic Social Services where I have gained experience working in a social services agency that helps families in crisis situations by providing
