## November 2014 1mao:

**China's Military Transformation** You Ji, 2016-01-25 China's military transformation is one of the major geo strategic developments of the 21st Century Billions of dollars are being spent modernizing The People's Liberation Army PLA as China seeks to upgrade and expand its military capabilities to rival the US In this cutting edge analysis You Ji a leading expert on China's military affairs explores the changes taking place within the PLA today covering its ground aerospace and maritime forces its ability to meet asymmetric threats and the growing role played by the People's Armed Police in quelling dissent in China He shows how these transformations in personnel technology and strategic goals are slowly driving a wedge between China's two most powerful institutions Until recently relations between the CCP and PLA were harmonious but as the PLA becomes increasingly professionalized and autonomous so its unconditional loyalty to the ruling Party may weaken The changing relationship between the CCP and PLA he argues is likely to have profound implications for China's own political development and the balance of power in the Asia Pacific region Comprehensive and incisive this timely book is a valuable resource for anyone interested in the nature and consequences of China's military rise **Afterlives of Chinese**

**Communism** Christian Sorace, Ivan Franceschini, Nicholas Loubere, 2019-06-25 Afterlives of Chinese Communism comprises essays from over fifty world renowned scholars in the China field from various disciplines and continents It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today Each chapter discusses a concept or practice from the Mao period what it attempted to do and what has become of it since The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today and whether there is a future for the egalitarian politics that it once promised *History and Nationalist Legitimacy in Contemporary*

*China* Robert Weatherley, Qiang Zhang, 2017-08-30 This book examines how the Chinese Communist Party CCP has attempted to bolster its nationalist legitimacy through the utilisation of Chinese history The authors identify two different modes of nationalism aggressive and consensual both of which are linked to the historical memory of the late Qing Dynasty and Republican era Aggressive nationalism dwells on China's traumatic century of humiliation and is intended to incite popular resentment towards former imperialist powers particularly Japan and the US whenever they are deemed to still be acting in a provocative manner in their dealings with China The aim is to remind the Chinese people that the CCP liberated China from imperialism after 1949 and has since restored national pride Consensual nationalism is more conciliatory emphasising common historical ties with the Guomindang KMT during the Second Sino Japanese War and the Republican era Here the CCP is trying to promote itself as the party of national harmony and unity with the long term objective being peaceful reunification with Taiwan However the public response in China has not always been supportive of the CCP's claims to be the sole defender of Chinese national interests Some critics have suggested that China would have been better off if the KMT had won the civil war instead of the CCP Others have insisted that the party is hopelessly weak on issues of national

Enlightenment passive secularism combative secularism and eliminationist secularism Howard argues that the latter two have been especially violence prone Westerners do not fully grasp this however because they often mistake the first form passive secularism for secularism as a whole But a disconcertingly more complicated picture emerges with the adoption of a broader global vision Admitting different species of secularism greater historical perspective and case studies drawn from the former Soviet Union Turkey Mexico Spain Czechoslovakia Albania Mongolia and China among other countries Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past

*The Emergence of Global Maoism* Matthew Galway,2022-03-15 The Emergence of Global Maoism examines the spread of Mao Zedong s writings ideology and institutions when they traveled outside of China Matthew Galway links Chinese Communist Party efforts to globalize Maoism to the dialectical engagement of exported Maoism by Cambodian Maoist intellectuals How do ideas manifest outside of their place of origin Galway analyzes how universal ideological systems became localized both in Mao s indigenization of Marxism Leninism and in the Communist Party of Kampuchea s indigenization of Maoism into its own revolutionary ideology By examining the intellectual journeys of CPK leaders who during their studies in Paris in the 1950s became progressive activist intellectuals and full fledged Communists he shows that they responded to political and socioeconomic crises by speaking back to Maoism adapting it through practice without abandoning its universality Among Mao s greatest achievements the Sinification of Marxism enabled the CCP to canonize Mao s thought and export it to a progressive audience of international intellectuals These intellectuals would come to embrace the ideology as they set a course for social change The Emergence of Global Maoism illuminates the process through which China moved its goal from class revolution to a larger anticolonial project that sought to cast out European and American imperialism from Asia

*Small Wars, Faraway Places* Michael Burleigh, 2014-11-25 A sweeping history of the Cold War's many

hot wars born in the last gasps of empire The Cold War reigns in popular imagination as a period of tension between the two post World War II superpowers the United States and the Soviet Union without direct conflict Drawing from new archival research prize winning historian Michael Burleigh gives new meaning to the seminal decades of 1945 to 1965 by examining the many largely forgotten hot wars fought around the world As once great Western colonial empires collapsed counter insurgencies campaigns raged in the Philippines the Congo Iran and other faraway places Dozens of new nations struggled into existence the legacies of which are still felt today Placing these vicious struggles alongside the period defining United States and Soviet standoffs in Korea Vietnam and Cuba Burleigh swerves from Algeria to Kenya to Vietnam and Kashmir interspersing top level diplomatic negotiations with portraits of the charismatic local leaders The result is a dazzling work of history a searing analysis of the legacy of imperialism and a reminder of just how the United States became the world s great enforcer

**The Sino-Soviet Alliance** Austin Jersild,2014-02-03 In 1950 the Soviet Union and the People s Republic of China signed a Treaty of Friendship Alliance and Mutual Assistance to foster cultural and technological cooperation between the Soviet bloc and the PRC While this treaty was intended as a break with the colonial past Austin Jersild argues that the alliance ultimately failed because the enduring problem of Russian imperialism led to Chinese frustration with the Soviets Jersild zeros in on the ground level experiences of the socialist bloc advisers in China who were involved in everything from the development of university curricula the exploration for oil and railway construction to piano lessons Their goal was to reproduce a Chinese administrative elite in their own image that could serve as a valuable ally in the Soviet bloc s struggle against the United States Interestingly the USSR s allies in Central Europe were as frustrated by the great power chauvinism of the Soviet Union as was China By exposing this aspect of the story Jersild shows how the alliance and finally the split had a true international dimension
