

## edexcel a level geography paper 2 - advanced information

Advantages and disadvantages of globalisation - ANS + Availability of information, increased world trade, prevent conflicts through understanding culture (westernisation) and drive improvement through competition and collaboration - shrinking world - Partially controlled by TNCs, interconnected markets can harm poorer economies, economies can become dependant on superpowers and fraud/cyber crime Development of jet aircraft has created a 'shrinking world' - ANS The first International Boeing 747 flight was in 1960, reducing transport costs, so flights became more affordable for customers in a distant market, e.g., EasyJet's rapid growth created a thirst for international tourism. Reduced travel time to hours, rather than days on steam ships What are the advantages of containerisation for trade? - ANS Lower transport loading costs, making consumer goods cheaper, fewer thefts of goods, lower insurance costs, fewer dock labourers because of its autonomy and increasing efficiency The world's fleet of 9500 container ships can carry up to 18,000 20 foot shipping containers each Communications developments and time-space compression - ANS Reduced communication costs and increased global communication flows, improved by satellite technology and fibre-optic cables Computers and the internet - coordination of business in different countries, and rise of global brands and social media - 65% of the world use the internet Mobile phones - extended info flows and reduced costs, expanding usage to an ubiquitous consumer product, even used in countries with a lack of communications infrastructure, eg, by 2015, 70% of Africa owned a mobile Governments and organisations and their role in globalisation - ANS Many organisations and governments have been major players in the globalisation process, for example, WTO, IMF, World Bank (Bretton Woods Institutions), EU and ASEAN - promoted free-market democracy in the face of a looming Cold War threat of communism National governments have promoted economic globalisation, via free trade and ending protectionism, for example, tariffs and quotas on imported goods Protectionist and liberal economic policies - ANS Globalisation increases competition and businesses in a country may suffer. Some governments impose taxes and tariffs on external goods and services to protect domestic businesses Liberal policies - governments encourage entrepreneurs to start businesses (eg, lower taxes) and privatise businesses as part of free-market economy, by joining and promote free-trade blocs IMF (International Monetary Fund) - ANS Loans to countries to finance development, who are facing short-term balance of payment difficulties, but continue to participate in global trade, keeping the global monetary system safe What are the terms of the Structural Adjustment Programs that the IMF sets? - ANS A country must operate a more free-market economy with trade

1 2 **Debates in Geography Education** Mark Jones,David Lambert,2017-09-07 Debates in Geography Education encourages early career teachers experienced teachers and teacher educators to engage with and reflect on key issues concepts and debates It aims to enable readers to reach their own informed judgements with deeper theoretical knowledge and understanding The second edition is fully updated in light of the latest research policy and practice in the field as well as key changes to the curriculum and examination specifications Expert contributors provide a range of perspectives on international historical and policy contexts in order to deepen our understanding of significant debates in geography education Key debates include geography s identity as an academic discipline what constitutes knowledge in geography places and regional geography what it means to think geographically constructing the curriculum how we link assessment to making progress in geography the contribution of fieldwork and outdoor experiences technology and the use of Geographical Information school geography and employability understanding the gap between school and university geography evidence based practice and research in geography education The comprehensive rigorous coverage of these key issues together with carefully annotated selected further reading will help support and shape further research and writing Debates in Geography Education is a key resource that is essential reading for all teachers and researches who wish to extend their grasp of the place of geography in education Mark Jones is Senior Lecturer in Education at the University of the West of England Bristol

UK David Lambert is Professor of Geography Education at UCL Institute of Education London UK **J-Reading n. 1-2013**  
,2013 **A Level Further Mathematics for OCR A Statistics Student Book (AS/A Level)** Vesna Kadelburg, Ben

Woolley, 2017-12-14 New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision Written for the OCR AS A Level Further Mathematics specification for first teaching from 2017 this print Student Book covers the Statistics content for AS and A Level It balances accessible exposition with a wealth of worked examples exercises and opportunities to test and consolidate learning providing a clear and structured pathway for progressing through the course It is underpinned by a strong pedagogical approach with an emphasis on skills development and the synoptic nature of the course Includes answers to aid independent study *Study Guide for CTET Paper 2 (Class 6 - 8 Teachers) Social Studies/ Social Science with Past Questions 5th Edition* Disha Experts, 2019-10-21 **Atlas of Knowledge** Katy Borner, 2015-03-20 The power of mapping principles for visualizing knowledge illustrated by many stunning large scale full color maps Maps of physical spaces locate us in the world and help us navigate unfamiliar routes Maps of topical spaces help us visualize the extent and structure of our collective knowledge they reveal bursts of activity pathways of ideas and borders that beg to be crossed This book from the author of Atlas of Science describes the power of topical maps providing readers with principles for visualizing knowledge and offering as examples forty large scale and more than 100 small scale full color maps Today data literacy is becoming as important as language literacy Well designed visualizations can rescue us from a sea of data helping us to make sense of information connect ideas and make better decisions in real time In Atlas of Knowledge leading visualization expert Katy Borner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis Drawing on fifteen years of teaching and tool development she introduces a theoretical framework meant to guide readers through user and task analysis data preparation analysis and visualization visualization deployment and the interpretation of science maps To exemplify the framework the Atlas features striking and enlightening new maps from the popular Places Spaces Mapping Science exhibit that range from Key Events in the Development of the Video Tape Recorder to Mobile Landscapes Location Data from Cell Phones for Urban Analysis to Literary Empires Mapping Temporal and Spatial Settings of Victorian Poetry to Seeing Standards A Visualization of the Metadata Universe She also discusses the possible effect of science maps on the practice of science **A University Education** David Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to and through university In A University Education David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries

especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework *Localism and the Design of Political Systems* Rick Harmes,2020-12-31 This book examines localism as a political idea and policy approach and explains what localism is about why it is growing in importance and how it relates to other themes in politics Illustrated with case studies from the United Kingdom mainland Europe and the Indian sub continent the book analyses localism in conceptual and theoretical terms and locates it within the overall landscape of political thought Key themes covered in the book include place space and scale decentralization and devolution multi level governance public value democracy and empowerment and political design With the focus on the bottom up constructivist aspects of localism the book argues that localism is most likely to work successfully in a political order where sovereignty is distributed across various social spheres and levels of government It offers a comprehensive view of localism by synthesizing its various strands and creating a distinctive framework for design and evaluation This book will be of particular interest to scholars students and practitioners of localism particularly within local and regional government public administration and policy human and political geography and urban studies The Public Wealth of Cities Dag Detter,Stefan Folster,2017-07-18 How to leverage existing resources to meet the current and future needs of cities Crumbling streets and bridges Poorly performing schools and inadequate social services These are common complaints in cities which too often struggle just to keep the lights on much less make the long term investments necessary for future generations It doesn't have to be this way This book by two internationally recognized experts in public finance describes a new way of restoring economic vitality and financial stability to cities using steps that already have been proven remarkably successful The key is unlocking social human and economic wealth that cities already own but is out of sight or hidden A focus on existing public wealth helps to shift attention and resources from short term spending to longer term investments that can vastly raise the quality of life for many generations of urban residents A crucial first step is to understand a city's balance sheet too few cities comprehend how valuable a working tool this can be With this in hand taxpayers politicians and investors can better recognize the long term consequences of political decisions and make choices that mobilize real returns rather than rely on more taxes debt or austerity Another hidden asset is real estate Even poor cities own large swathes of poorly utilized land or they control underperforming utilities and other commercial assets Most cities could more than double their investments with smarter use of these commercial assets Managing the city's assets

smartly through the authors proposed Urban Wealth Funds at arm's length from short term political influence will enable cities to ramp up much needed infrastructure investments

**Indonesia's Foreign Policy and Grand Strategy in the 21st Century** Vibhanshu Shekhar, 2018-03-14 This book examines the changes in Indonesian foreign policy during the 21st century as it seeks to position itself as a great power in the Indo Pacific region The rise of 21st century Indonesia is becoming a permanent fixture in both the domestic and global discourses Though there has been an increasing level of discussion on Indonesia's emerging power status there has been little discussion on how the country is debating and signalling its new found status This book combines the insights of both neo classical realism and social identity theory to discuss a reset in an emerging Indonesia's foreign policy during the 21st century while emphasizing domestic drivers and constraints of its international behaviour There are three key organizing components of the book emerging power status signalling and the Indo Pacific region The Indo Pacific region constitutes a spatial framing of the book the emerging power provides an analytical category to explain Indonesia's changing international status and status signalling explains multiple facets of international behaviour through which the country is projecting its new status Though leaders are adding different styles and characteristics to the rising Indonesia narrative there are a few unmistakable overarching trends that highlight an increasing correlation between the country's rising power and growing ambition in international behaviour This book is built around four key signalling strategies of Indonesia as an emerging power expanded regional canvas power projection leadership projection and quest for great power parity They represent Indonesia's growing desire for a status consistent behaviour its response to the prevailing strategic uncertainty in the Indo Pacific region and its attempt to advance its strategic interests This book will be of much interest to students of South East Asian politics strategic studies international diplomacy security studies and IR in general

**Smart Specialization in Croatia** Arabela Aprahamian, Paulo Guilherme Correa, 2015-06-25 The report examines recent trends in Croatia's in trade productivity innovation performance and policy governance framework to help identify priorities for the development of the country's Smart Specialization Strategy which is an ex ante conditionality for access to the EU's Structural and Investment Funds over the 2014-20 programming period

**The Chinese Constitution of Central Asia** N. Godehardt, 2014-03-21 China's commitments in Central Asia illustrate how regional foreign policy works and how long standing principles of Chinese foreign policy might be revised in the near future China's rise has moved Asia which is why it seems that what we have traditionally regarded as the geographic and political scope of Asia might actually considerably change in the near future Nadine Godehardt gives crucial insights into the Chinese expert discourse on Central Asia analyzing how Chinese experts define Central Asia when they talk and write about policy issues related to China's immediate Western neighbourhood In this context she gives an inside perspective on Chinese voices whose meanings are rarely examined in Chinese International Relations studies

Accessibility, Equity and Efficiency Karst T. Geurs, Roberto Patuelli, Tomaz Ponce Dentinho, 2016-02-26 Leading researchers from around the world show in this volume

the importance of accessibility in contemporary issues such as rural depopulation investments in public services and public transport and transport infrastructure investments in Europe The trade offs between accessibility economic development and equity are comprehensively examined and a variety of approaches to measuring accessibility and equality presented The book s interdisciplinary contributions also provide different geographical contexts from the US to various European and developing countries and cover ex ante and ex post evaluation of transport investment Improving transport accessibility is a main objective in transport policy and planning in developed and developing countries all over the world Investment is motivated by the need to develop and or reduce spatial or social inequalities However the economic and equity implications of investments in transport are not straightforward The concepts of accessibility and equity can be defined and operationalized in many different ways influencing outcomes and conclusions Moreover equity and efficiency goals are often conflicting Accessibility models not only help to explain spatial and transport patterns in developed and developing countries but are also powerful tools to explain the equity and efficiency impacts of urban and transport policies and projects This state of the art overview of the accessibility economic efficiency equity relationship will appeal to researchers as well as transport and urban planners interested in accessibility issues and transport regional developments

**Evolutionary Economic Geography** Dieter Kogler, 2017-10-02 Economic geographers increasingly consider the significance of history in shaping the contemporary socio economic landscape and increasingly believe that experiences and competencies acquired over time by individuals and entities in particular localities to a large degree determine present configurations as well as future regional trajectories Attempts to trace understand and investigate the pathways from past to present have given rise to the thriving and exciting sub field of Evolutionary Economic Geography EEG EEG highlights the important factors that initiate inhibit or consolidate the contextual settings and relationships in which regions and their respective agents which comprise and shape economic activity and social reproduction change over time It has at its core the production and destruction of novelty in space and the links between innovation and regional economic fortunes The creation of knowledge its movement and recombination within different regional ensembles of economic agents and institutions plays a critical role in the evolution of the space economy EEG provides a framework to disentangle the complexity of technological change and regional economic development based on a variety of theoretical and methodological approaches In only a short time EEG has established itself as a promising and rapidly evolving research framework with its focus on the driving forces of regional development across various scales and its attempt to translate findings into public policy This book advances the theoretical foundations of EEG and demonstrates how EEG utilises and operationalises conceptual frameworks both established and new Contributions also point to future research avenues and extensions of EEG attempting to build stronger ties between theory empirical evidence and relevance to policy This book was originally published as a special issue of Regional Studies

**Tourism and Oil** Susanne Becken, 2015-01-12 This book is the first to examine oil constraints and tourism and addresses one of the key challenges for

the tourism industry in the future It provides an estimate of how much oil tourism consumes globally and summarises state of the art information on oil resources oil data and public discourse The volume also offers an analysis of the economic implications of increasing oil prices for tourism and discusses key dimensions relevant for tourism in a post peak oil world It will be useful for tourism stakeholders globally postgraduate students in tourism and resource management ecological economists and those researching issues of resource efficiency carrying capacity and global environmental change *The Unions' Response to Globalization* Gary Chaison, 2014-07-08 Globalization is commonly described in trade and cultural terms but its impact on unions and collective bargaining is seldom assessed The few studies of unions and globalization are mostly collections of cases studies of how unions can work together or with other alliance partners to defend against the power of multinational corporations This book goes beyond the current research by asking how unions have tried to deal with globalization and how globalization might threaten the fundamental union mission of taking wages hours and conditions of employment out of competition The introductory chapter defines globalization and uses the case of the Detroit Three automakers GM Chrysler and Ford to show how globalization can affect employment and union size influence and relevancy The second chapter shows how unions deal globalization through collective bargaining regarding outsourcing alliances strikes and political action including lobbying and international work standards The final chapter argues that the unions cannot continue unchanged in this age of globalization and asks what they must do to be effective and relevant **The Economics of Airport Operations** James Peoples, John Bitzan, 2017-10-03 This volume examines the role that airports play in economic development and land values the regulation and economic efficiency of airports airport pricing and competition and the role played by airports in influencing airline operations and networks *Risk Communication and Community Resilience* Bandana Kar, David M. Cochran, 2019-05-28 Risk communication is crucial to building community resilience and reducing risk from extreme events True community resilience involves accurate and timely dissemination of risk information to stakeholders This book examines the policy and science of risk communication in the digital era Themes include public awareness of risk and public participation in risk communication and resilience building The first half of the book focuses on conceptual frameworks components and the role of citizens in risk communication The second half examines the role of risk communication in resilience building and provides an overview of some of its challenges in the era of social media This book looks at the effectiveness of risk communication in socially and culturally diverse communities in the developed and developing world The interdisciplinary approach bridges academic research and applied policy action Contributions from Latin America and Asia provide insight into global risk communication at a time when digital technologies have rapidly transformed conventional communication approaches This book will be of critical interest to policy makers academicians and researchers and will be a valuable reference source for university courses that focus on emergency management risk communication and resilience *Sustainable Education and Development* Joseph N. Mojekwu, Wellington Thwala, Clinton

Aigbavboa, Lawrence Atepor, Samuel Sackey, 2021-04-16 This book presents papers from the 9th Applied Research Conference in Africa ARCA showcasing the latest research on sustainable education and development The conference is focused on applied research discussion and its dissemination developing understanding about the role of research and researchers in the development of the continent ARCA gathers papers which explain how key education is to transforming lives eradicating poverty and driving sustainable development in Africa Presenting high quality research about developing economies construction education and sustainability this proceedings will be of interest to academics postgraduate students and industry professionals

**Integrated Water Resource Planning** Claudia Baldwin, Mark Hamstead, 2014-09-04 Integrated Water Resource Planning provides practical evidence based guidance on water resource planning In a time of heightened awareness of ecosystem needs climate change and increasing and conflicting demands on resources water professionals and decision makers around the world are on a steep learning curve This book presents an international examination of water reform experiences and provides lessons in how to manage environmental uncertainties long term management and increase in demand It breaks the process down into a series of common steps applies program logic and evaluation theory and discusses best practices in assessment decision making and community engagement Importantly it recognises the large variation in available knowledge and capacity risk and scale and discusses a range of approaches that can be used for different circumstances The book will fill in the gaps for professionals in interdisciplinary teams including sociologists hydrologists engineers ecologists and community consultation specialists by providing a basic grounding in areas outside their usual expertise and will provide ammunition to community stakeholders in their quest to ensure that water planning outcomes are justified and justifiable Case studies provide an understanding of the context practical tools and implementation techniques for achieving sustainable outcomes and the multi disciplinary approach and insights offered in this book will be transposable and instructive for water professionals worldwide
