### **African Borders, Conflict, Regional and Continental Integration**

Inocent Moyo, Christopher Changwe Nshimbi, 2019-04-25 This book looks at the ways African borders impact war and conflict as well as the ways continental integration could contribute towards cooperation peace and well being in Africa African borders or borderlands can be a source of problems and opportunity There is often a historical geospatial and geopolitical architecture rooted in trajectories of war conflict and instability which could be transformed into those of peace regional and continental integration and development An example is the cross border and regional response to the Boko Haram insurgency in West Africa This book engages with cross border forms of cooperation and opportunity in Africa It considers initiatives and innovations which can be put in place or are already being employed on the ground within the current regional and continental integration projects Another important element is that of cross border informality which similarly provides a ready resource that if properly harnessed and regulated could unleash the development potential of African borders and borderlands Students and scholars within Geography International Relations and Border Studies will find this book useful It will also benefit civil society practitioners policymakers and activists in the NGO sector interested in issues such as migration social cohesion citizenship and local development

### **Africa Water Atlas** United Nations Environment Programme, 2010

This Africa Water Atlas is a visual account of Africa s endowment and use of water resources revealed through 224 maps and 104 satellite images as well as some 500 graphics hundreds of compelling photos plus a brief profile of the water situation in every country These visual elements vividly illustrate a succinct narrative describing and analysing Africa s water issues and exemplifying them through the judicious use of case studies The Atlas tells the paradoxical story of a continent with adequate renewable water resources but unequal access because the water is either abundant or scarce depending on the season or the place it explores the opportunities to develop Africa s untapped water resources and human capacities to

deliver safe drinking water and sanitation services to achieve the water related Millennium Development Goals As well as hydropower and irrigation services that help support livelihoods and boost economic development *Social and Legal Theory in the Age of Decoloniality* Artwell Nhemachena, Victor Warikandwa, 2018-06-07 Right from the enslavement era through to the colonial and contemporary eras Africans have been denied their human essence portrayed as indistinct from animals or beasts for imperial burdens Africans have been historically dispossessed and exploited Postulating the theory of global jurisprudential apartheid the book accounts for biases in various legal systems norms values and conventions that bind Africans while affording impunity to Western states Drawing on contemporary notions of animism transhumanism posthumanism and science and technology studies the book critically interrogates the possibility of a jurisprudence of anticipation which is attentive to the emergent New World Order that engineers human beings to become nonhumans while nonhumans become humans Connecting discourses on decoloniality with jurisprudence in the areas of family law environment indigenisation property migration constitutionalism employment and labour law commercial law and Ubuntu the book also juggles with emergent issues around Earth Jurisprudence ecocentrism wild law rights of nature Earth Court and Earth Tribunal Arguing for decoloniality that attends to global jurisprudential apartheid this tome is handy for legal scholars and practitioners social scientists civil society organisations policy makers and researchers interested in transformation decoloniality and Pan Africanism *Africa's Gene Revolution* Matthew A. Schnurr, 2019-11-07 As development donors invest hundreds of millions of dollars into improved crops designed to alleviate poverty and hunger Africa has emerged as the final frontier in the global debate over agricultural biotechnology The first data driven assessment of the ecological social and political factors that shape our understanding of genetic modification Africa's Gene Revolution surveys twenty years of efforts to use genomics based breeding to enhance yields and livelihoods for African farmers Matthew Schnurr considers the full range of biotechnologies currently in commercial use and those in development including hybrids marker assisted breeding tissue culture and genetic engineering Drawing on interviews with biotechnology experts alongside research conducted with more than two hundred farmers across eastern western and southern Africa Schnurr reveals a profound incongruity between the optimistic rhetoric that accompanies genetic modification technology and the realities of the smallholder farmers who are its intended beneficiaries Through the lens of political ecology this book demonstrates that the current emphasis on improved seeds discounts the geographic social ecological and economic contexts in which the producers of these crops operate Bringing the voices of farmers to the foreground of this polarizing debate Africa's Gene Revolution contends that meaningful change will come from a reconfiguration not only of the plant's genome but of the entire agricultural system *Who's Who in Science and Engineering 2008-2009* Who's Who Marquis, Marquis Who's Who, 2007-12 *Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa* Nojiyeza, Innocent Simphiwe, Mtapuri, Oliver, Bazaanah, Prosper, Netshiozwi, Edzisani Ellen, 2022-01-28 Access to water and sanitation remains a

critical challenge in various countries in Africa The crisis remains the crisis of governance rather than the physical and economic scarcity In most countries water is realized as a human right and subsidies are provided for the indigent households The tricky issue in rural areas remains an issue of access that is often linked to willingness and ability to pay for the installation and daily consumption The Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa presents practical examples of integrated water resources management IWRM implementation in African countries It further addresses the contemporary issues of alternative energy as part of climate change mitigation and utilizes case studies to examine how communities adapt to climate change Covering topics such as climate justice ecological governance and political ecology this major reference work is a dynamic resource for government officials sociologists climate scientists activists students and educators of higher education academicians and researchers in the fields of social sciences government developmental studies international relations and political science      Population Growth and Rapid Urbanization in the Developing World Benna, Umar G., Garba, Shaibu Bala, 2016-06-07 As the global population continues to boom particularly in the developing countries it has become necessary to find ways to handle this increase through various policy tools that address population growth and urbanization problems The urbanization process has both potentials issues as well as opportunities to move societies forward that need to be exploited Population Growth and Rapid Urbanization in the Developing World examines trends challenges issues and strategies adopted by developing countries in the face of population growth and rapid urbanization and its impact on urban environments The book explores patterns of population growth and urbanization use of different governance approaches in addressing challenges as well as different tools and systems of appropriate allocation to address issues The book is a comprehensive reference for academicians students practitioners professionals managers urban planners and government officials      *Africa* Tony Binns, Etienne Nel, Alan Dixon, Kenneth Lynch, 2023-12-08 Africa Diversity and Development introduces and demystifies Africa's diversity and dynamism and considers how its peoples and environments have interacted through time and space The book examines the background and diversity of Africa's social cultural economic political and environmental systems as well as key development issues which have affected Africa in the past and are likely to be significant in shaping the future of the continent These include the impact of HIV AIDS sources of conflict and post conflict reconstruction the state and governance the nature of African economies in a global context and future development trajectories This second edition features new chapters on history and governance health separate chapters on rural and urban development and updated content on all aspects of the continent particularly aspects of culture and ethnicity It is richly illustrated throughout with diagrams and plates and contains a wealth of detailed up to date case studies and current data This textbook is a refreshing interdisciplinary text which enhances understanding of the background to Africa's current position and clarifies possible future scenarios It will be a valuable resource for students taking modules on Africa African Development and Geography of Africa and will also prove useful to students in the wider
