A history of America's Stand Your Ground gun laws from Reconstruction to Trayvon Martin. After a young white gunman killed twenty-six people at Sandy Hook Elementary School in Newtown, Connecticut, in December 2012, conservative legislators lamented that the tragedy could have been avoided if the schoolteachers had been armed and the classrooms equipped with guns. Similar claims were repeated in the aftermath of other recent shootings: after nine were killed in a church in Charleston, South Carolina, and in the aftermath of the massacre in the Pulse nightclub in Orlando, Florida. Despite inevitable questions about gun control, there is a sharp increase in firearm sales in the wake of every mass shooting. Yet this kind of DIY security activism predates the contemporary gun rights movement and even the stand your ground self-defense laws adopted in thirty-three states or the thirteen million civilians currently licensed to carry concealed firearms. As scholar Caroline Light proves, support for good guys with guns relies on the entrenched belief that certain bad guys with guns threaten us all. Stand Your Ground explores the development of the American right to self-defense and reveals how the original duty to retreat from threat was transformed into a selective right to kill. In her rigorous genealogy, Light traces white America's attachment to racialized lethal self-defense by unearthing its complex legal and social histories from the original castle laws of the 1600s, which gave white men the right to protect their homes, to the brutal lynching of criminal Black bodies during the Jim Crow era, and the radicalization of the NRA as it transitioned from a sporting organization to one of our country's most powerful lobbying forces. In this convincing treatise on the United States' unprecedented ascension as the world's foremost stand your ground nation, Light exposes a history hidden in plain sight, showing how violent self-defense has been legalized for the most privileged and used as a weapon against the most vulnerable. **Knock out Liberalism and Keep Our Country Strong for All Americans** R.T. Brown, 2019-03-22. We are about taking action and rattling the cages of the liberals and not sitting on our hands and complaining. There are solutions to our many problems, and we are looking for others who are ready to make a difference for a better country for all Americans. The liberals will be exposed and made irrelevant as we promote the benefits of being a real conservative. One of our goals is to earn 20 percent of the Black vote in the 2020 election all across America. This gets done with our tools and excellent strategy that is hard hitting. We will be on billboards delivering the truth and facts all across America. We also have as our goal to get the majority of the Hispanic vote by 2020. We will bring millions of voters to the Republican Party with our persuasion and common sense solutions. This is not the typical campaign that is run by both parties, but a 365-day-a-year plan that exposes, teaches, and motivates Americans to be the best they can be in their everyday life. Check out my book that introduces Conservative Wisdom United and see what we have planned for America. You are about to make a small

investment that will keep our country strong for our future generations It is imperative for us to get the ball rolling in the right direction and to get involved before it is too late Is Bipartisanship Dead? Ross K. Baker, 2015-12-03 *Is Bipartisanship Dead* is a status report on the condition of bipartisanship in the U S Senate and includes material from candid on the record interviews with a dozen Democrats and Republicans The book explores the distinct differences in bipartisanship in Senate committees and on the floor of the chamber and highlights the role of party leaders in promoting or discouraging bipartisan efforts The book also asks the important question Is bipartisanship necessarily a good thing and provides examples of flawed bipartisan legislation along with the views of critics of bipartisanship Finally the book delivers a dispassionate analysis of the vital signs of bipartisanship in the U S Senate and examines the constraints on bipartisan action in an era of polarized politics
