Eden's Garden Richard J. Coleman, 2007 The time is ripe for a robust discussion of human nature In Eden s Garden Rethinking Sin and Evil in an Era of Scientific Promise Richard Coleman examines the notion of sin in a contemporary world that values scientific and nonreligious modes of thought regarding human behavior This work is not an anti science polemic but rather an argument to show how sin and evil can make sense to the nonreligious mind and how it is valuable to make sense of such phenomena The author reconceptualizes sin and evil as indelible pieces of our evolutionary history preventing them from being ostracized as too religious without substance mired in the past Coleman redeems theology for what it can offer to the understanding of sin and evil while embracing and respecting what science can offer to further the common good Examining themes in religion philosophy and theology it is ideal for use in the numerous courses that move across these disciplines

The Living Church, 1981

Remember Creation Scott Hoezee, 1998 Why is it that many Christians find a theological scientific debate about creation s ancient origins far more engaging than a speech about how to live responsibly in the creation today Are we more fascinated by academic debates that focus our gaze on what happened long ago than by the hands on discussions that focus our gaze on the world of wonders outside our windows right now In Remember Creation Scott Hoezee challenges readers to make today s world more central to the Christian faith by enjoying and preserving God s cosmos as a part of daily discipleship Solidly grounded in a wealth of Scripture passages this book reveals God s ecology of praise which all Christians should want to explore and preserve Throughout the book Hoezee also offers suggestions to help congregations families and all Christians to take more delight in God s world while working to keep alive the wonders that bring God joy Scott Hoezee adds a refreshing new twist to the discussion on the environment Shouldn t we start by simply enjoying creation and honoring it for what it is With illustrations both biblical and personal Hoezee makes a compelling case
