

CHAPTER 11

Section II

SKILLBUILDER PRACTICE

Analyzing Assumptions and Biases

An assumption is a belief or an idea that is taken for granted to be true. Some assumptions are based on factual evidence, while others are based on personal opinion and observations. Bias is a one-sided, prejudiced point of view. As you read the passage below, look for clues that signal the author's point of view. Then answer the questions below. (See Skillbuilder Handbook.)

Every Englishman is born with a certain intrinsic English power that makes him master of the world. When he wants a thing he never tells himself that he wants it. He waits patiently till chance comes into his hand, no one knows how, a burning conviction that it is his moral and religious duty to conquer those who have got the thing he wants. Then he . . . conquers half the world and calls it Colonization. When he wants a new market for his adulterated Manchester goods, he sends a missionary to teach the natives the gospel of peace. The natives kill the missionary; he then re-arms in defense of Christianity, fights for it, conquers for it, and

takes the market as a reward from heaven. . . .

You will never find an Englishman in the wrong. He does everything on principle. He fights you on patriotic principles; he robs you on business principles; he swallows you on imperial principles; he bullies you on massy principles; he supports his king on loyal principles, and cuts off his king's head on republican principles. His wanderlust is always duty; and he never forgets that the nation which he is duty-bound to defend is the nation which his duty gets on the opposite side to its interest is lost.

from George Bernard Shaw, *The Man of the Moment*, 1900
