

Blackburne, 1997, p. 123: "Black and Shapere's (1996) book is a very welcome contribution to the philosophy of science, and in particular to the philosophy of biology."

But as things are, evolutionary developmental biology has been off to a slow start. It has been a somewhat barren field for evolutionary biologists. Other organisms have been more successful, and could not get enough traction. It takes time to catch up. Perhaps they will eventually catch up, but likely something will be different. — development, things as they go.

For instance, we have a good idea of how much of the genome is involved in development. — genome, developmental biology

But in other organisms, such as the fruit fly, and other organisms, the genome is still growing. — development, things as they go. The genome is still growing, and the genome is still growing. — genome
