**The Objectives and Contents of and the Working Methods in Consumer Education for Teacher Training** Kaija Kärpijoki, 2000 Sammandrag      **Reconceptualizing Plato's Socrates at the Limit of Education** James M.

Magrini, 2016-11-25 Bridging the gap between interpretations of Third Way Platonic scholarship and phenomenological ontological scholarship this book argues for a unique ontological hermeneutic interpretation of Plato and Plato's Socrates. Reconceptualizing Plato's Socrates at the Limit of Education offers a re-reading of Plato and Plato's Socrates in terms of interpreting the practice of education as care for the soul through the conceptual lenses of phenomenology, philosophical hermeneutics, and ontological inquiry. Magrini contrasts his re-reading with the views of Plato and Plato's Socrates that dominate contemporary education, which for the most part emerge through the rigid and reductive categorization of Plato as both a realist and idealist in philosophical foundations texts, teacher education programs. This view also presents what he terms the questionable Socrates as teacher model, which grounds such contemporary educational movements as the Paideia Project, which claims to incorporate through a scripted curriculum with Socratic lesson plans the so-called Socratic Method into the Common Core State Standards Curriculum as a technical skill that can be taught and learned as part of the students' critical thinking skills. After a careful reading incorporating what might be termed a Third Way of reading Plato and Plato's Socrates, following scholars from the Continental tradition, Magrini concludes that a so-called Socratic education would be nearly impossible to achieve and enact in the current educational milieu of standardization or neo-Taylorism. Social Efficiency. However, despite this, he argues in the affirmative that there is much educators can and must learn from this non-doctrinal re-reading and re-characterization of Plato and Plato's Socrates.      Plato's Socrates, Philosophy and Education James M.

Magrini, 2017-12-01 This book develops for the readers Plato's Socrates' non-formalized philosophical practice of learning through questioning in the company of others. In doing so, the writer confronts Plato's Socrates in the words of John Dewey as the dramatic, restless, cooperatively inquiring philosopher of the dialogues, whose view of education and learning is unique. 1 It is focused on actively pursuing a form of philosophical understanding irreducible to truth of a propositional nature, which defies transfer from practitioner to pupil. 2 It embraces the perennial on the wayness of education and learning in that to interrogate the virtues or the good life through the practice of the dialectic is to continually renew the quest for a deeper understanding of things by returning to reevaluating and modifying the questions originally posed regarding the good life. Indeed, Socratic philosophy is a life of questioning those aspects of existence that are most question-worthy, and 3 It accepts that learning is a process guided and structured by dialectic inquiry and is already immanent within and possible only because of the unfolding of the process itself, i.e., learning is not a goal that somehow stands outside the dialectic as its end-product, which indicates erroneously that the method or practice is disposable. For learning occurs only through continued, sustained communal dialogue.      **Resources in Education**, 1992-04      **The e-Learning Reader** Sara de Freitas, Jill
