[The Killing Moon](#) Chuck Hogan,2007-01-02 With a brilliantly plotted new crime novel set in small town Massachusetts Chuck Hogan prizewinning author of Prince of Thieves delivers a page turning knockout thriller that demonstrates why he is the unrivaled master of gritty suspense The crack of a handgun shatters the silence of a warm summer night A notorious local felon and former child magician vanishes seemingly without a trace A corrupt police force applies a stranglehold to a failing town An ailing old man hatches a last ditch plan to save the police department he once headed and the community he still loves An outsider arrives bearing a simple recipe for death that could destroy them all Buried deep in the rural backcountry of New England the town of Black Falls isn t dying so much as quietly fading away No supermarket No traffic lights No ATM No hope Donald Maddox a man with no law enforcement background indeed no background at all has returned to his hometown after fifteen years to find himself employed as an auxiliary patrolman on a local police force known to inspire more fear than trust in its citizenry When a brutal murder shatters the isolation of this forgotten place triggering the arrival of state police homicide detectives and a town wide manhunt both the local cops and Maddox appear to have something to hide As the tightly wound mystery that is Maddox s past begins to unravel he becomes ensnared in a deadly conspiracy that ultimately threatens his life as well as the lives of those nearest him From its opening pages until its haunting final image The Killing Moon displays the author s trademark gift for soul deep characterization crisp pacing and unflinching realism This is Chuck Hogan s richest most satisfying thriller yet

The Men Who Stare at Goats Jon Ronson,2011-06-28 Now a major film starring George Clooney Ewan McGregor and Jeff Bridges this New York Times bestseller is a disturbing and often hilarious look at the US military s long flirtation with the paranormal and the psy op soldiers that are still fighting the battle Bizarre military history In 1979 a crack commando unit was established by the most gifted minds within the US Army Defying all known laws of physics and accepted military practice they believed that a soldier could adopt the cloak of invisibility pass cleanly through walls and perhaps most chillingly kill goats just by staring at them They were the First Earth Battalion entrusted with defending America from all known adversaries And they really weren t joking What s more they re back and they re fighting the War on Terror An uproarious exploration of American military paranoia With investigations ranging from the mysterious Goat Lab to Uri Geller s covert psychic work with the CIA to the increasingly bizarre role played by a succession of US presidents this might just be the funniest most unsettling book you will ever read if only because it is all true and is still happening today
