In this book, you will learn how to text a girl, how to set up the date of your dreams, pick up and icebreaker lines to make the conversation smoother, relevant conversational topics within the first stages of a chat, how to make the first approach to a girl, and tips about the first date. Texting is something that often gets guys. They have a good interaction with a girl, but then they mess up their chances by sending a bad text, texting too early to try to get a date, or too late, and she's lost the attraction by then. You'll also get examples to illustrate the lessons, but the book focuses on the mindset you should have and how to convey and project a cool, non-needy, and attractive vibe through your texts that will make you stand out among other guys who text her.

From breakout stand-up comedian Iliza Shlesinger comes a subversively funny collection of essays and observations on the secret genius of irrational behavior. Have you ever been pissed because you're not pretty enough and then gotten even more pissed that someone didn't find you as pretty as you think you are? Have you ever obsessed over the size of your thighs while eating dessert all the while saying you'll work out extra tomorrow? Or spent endless hours wondering why you have to bear the brunt of other people's insecurities? I mean, after all, I'm pretty great. Why cope with insecurities I don't already have? That last one's just me. All right then. But if the rest sounds familiar, you are experiencing *Girl Logic*, a characteristically female way of thinking that appears contradictory and circuitous but is actually a complicated and highly evolved way of looking at the world. You end up considering every repercussion of every choice about dating, career, clothes, lunch, before making a move toward what you really want. And why do we attempt these mental hurdles?
