Connecting the PlayStation®Eye camera

Securely insert the camera's USB connector into one of the USB connectors on the front of the PlayStation®3 system. The blue LED power indicator on the front of the camera should light up to indicate that it is now ready to use.

Disconnecting the PlayStation®Eye camera

To disconnect the camera, gently pull the camera's USB connector out of the PlayStation®3 system. Do not pull on the cable itself as this may damage it. Removal of the camera during play will result in the termination of the live feed.

**Using the PlayStation®Eye camera**

It is recommended to stand between 1.5 metres and 2.0 metres away from the camera.

Ensure the lens angle selector is rotated to the appropriate setting. Turn the lens angle selector to the right so that the lens angle marker is in line with the blue lens angle indicator for "wide angle view". Alternatively, turn the lens angle selector to the left so that the lens angle marker is in line with the red lens angle indicator for "standard view".

If your camera is positioned on the floor, simply tilt the camera for extra elevation or swivel the camera base around to reposition it. Players of different heights should tilt the angle of the camera for extra convenience. DO NOT move the whole camera, just tilt it gently.

Make sure that the background behind you is as motionless as possible, as background motion may hinder gameplay. Ensure there is enough room to play – watch out for shelves, doors, walls, pets and above all, other people.
