

Activity 7.3 Tolerances

Procedure

1. Study the drawings below, identify specified tolerances.
 - a. Highlight each dimension that has a tolerance associated with it using something like a highlighter tool.
 - b. Identify the type of tolerance shown, highlighting examples by highlighting tolerance specifications using the following: *dimensional*, *geometric*, or *profile* tolerance.
 - c. Label each identified tolerance with a tolerance zone, A through J.
2. Working on a new page in your engineering notebook, draw your own sketch of each tolerance identified on concept drawing. Identify each tolerance as a *form* tolerance that describes the *difference* within a feature, the *location*, or *orientation* of a feature, or *relationship* between adjacent dimensional features, and an explanation as to why that particular tolerance requires a tolerance. Also may wish to distinguish between *manufacturing* or *your response* as *important* or *not*.
