

Now, comes how to fill Work Experience Details In PMP® Application Form? It is a very simple 3 step process.

1. Project Information– Title of the project, start, and end date, Project budget, Team Size, Project approach or life cycle, and your job title.

2. Organization Details– Organization name, your functional reporting area, and organization primary focus for the project as follows:

- **Functional Reporting Area** – This refers to the team you are part of. For example, you are working in the Information Technology (IT) Department of an Insurance Company, so IT is the " Functional Reporting Area".
- **Organization Primary Focus** – This means the industry in which the organization operates. Insurance is "Organization Primary Focus " (From the above example)
- **Project Budget** – If you are not aware of the exact budget, you can put it as classified, but try to put some close numbers, an accurate number is not required.
- **Team Size** – Avoid selecting "classified", because the project manager must be aware of the team size. So there must be a number to it.
- **Approach / Methodology** – You need to select from the dropdown. In case it is both agile and predictive, then please select Hybrid from the dropdown.

In case you select Agile or Hybrid then please ensure to reflect the same in the project description.

3. Project Description– Try to pick activities from all those five processes where you have spent work time and summarize them under this head. Following are the guidelines for better present your experience:

- **Start with a project goal:** The very first step in all projects is to recognize its outcome expected from the business. So, start the project description with a one-sentence final project outcome, which is "what" will the project accomplish? Like a hospital management system may have a goal that patients will not wait longer than 30 minutes to see a doctor.
- **Think, in each project, what you did process group wise:** It is crucial that you invest time to deeply think what you did in the project and in which process group these activities belong. Afterward, snap up your thought with the description. Please note, project management experience is required in each of the process areas when all projects are totaled, but not on each project. It is entirely acceptable that you are not showing experience from all process groups in a single project. Just try to make sure, that overall you are presenting your expertise in all of the process groups out from all the projects. If your application is mentioning one or two activities from all process groups, your application is good to go.
- **Start writing project description:** Once you listed down tasks for each process group, mention the description in a way that communicates your experience well using appropriate tools & techniques and outputs in aligning with the [PMBOK® and PMP® content outline](#).
