

*A little boy to fill your heart
with love beyond compare
An angel sent from Heaven...
A lifetime yet to share...
I'll be the first to steal your heart,
The first to kiss your cheek,
The first to wrap you 'round my finger
from the moment that we meet...
I'll be the first to hold your hand,
The first to stay the night,
The first to say "I love you"
Much to your delight...
A little boy to fill your heart
with love beyond compare
An angel sent from Heaven...
The answer to your prayers...
I'll be the first to steal your heart,
The first to kiss your cheek...
The first to call you Grandpa,
Oh how special that will be!!*

I can't wait to meet you Grandpa!!

*Love
Your Grandson*

Anthropocene Poetry Yvonne Reddick, 2023-11-03 Anthropocene Poetry Place Environment and Planet argues that the idea of the Anthropocene is inspiring new possibilities for poetry It can also change the way we read and interpret poems If environmental poetry was once viewed as linked to place this book shows how poets are now grappling with environmental issues from the local to the planetary climate change and the extinction crisis nuclear weapons and waste plastic pollution and the petroleum industry This book intervenes in debates about culture and science traditional poetic form and experimental ecopoetics to show how poets are collaborating with environmental scientists and joining environmental activist movements to respond to this time of crisis From the canonical work of Ted Hughes and Seamus Heaney to award winning poets Alice Oswald Pascale Petit Kei Miller and Karen McCarthy Woolf this book explores major figures from the past alongside acclaimed contemporary voices It reveals Seamus Heaney s support for conservation causes and Ted Hughes s astonishingly forward thinking research on climate change it discusses how Pascale Petit has given poetry to Extinction Rebellion and how Karen McCarthy Woolf set sail with scientists to write about plastic pollution This book deploys research on five poetry archives in the UK USA and Ireland and the author s insider insights into the commissioning processes and collaborative methods that shaped important contemporary poetry publications Anthropocene Poetry finds that environmental poetry is flourishing in the face of ecological devastation Such poetry speaks of the anxieties and dilemmas of our age and searches for paths towards resilience and resistance

Phantoms of the Other David Farrell Krell, 2015-02-10 Features a reconstruction of an unfinished text by Jacques Derrida from his most penetrating series of readings of Heidegger s philosophy During the 1980s Jacques Derrida wrote and published three incisive essays under the title *Geschlecht* a German word for generation and sexuality These essays focused on the philosophy of Martin Heidegger taking up the rarely discussed issue of sexual difference in Heidegger s thought A fourth essay actually the third in the series was never completed and never published In *Phantoms of the Other*

David Farrell Krell reconstructs this third Geschlecht on the basis of archival materials and puts it in the context of the entire series Touching on the themes of sexual difference poetics politics and criticism as practiced by Heidegger Derrida s unfinished third essay offers a penetrating critical analysis of Heidegger s views on sexuality and Heidegger s reading of the love poems of Georg Trakl one of the greatest Expressionist poets of the German language who died during the opening days of the First World War A major contribution to Derrida studies to Heidegger studies and to philosophy Walter Brogan This study of Derrida s several engagements with Heidegger under the title of Geschlecht shows Krell s remarkable scholarship linguistic ability philosophical insight and subtlety at their very best Charles E Scott *The German Poets of the First World War* Patrick Bridgwater,2020-01-31 Originally published in 1985 this book provides a full survey of the best and most significant work of German writers to the First World War Including in both German and English the texts of all the main poems discussed this book contains many not readily available elsewhere Authors discussed include Trakl Rilke and George as well as less familiar names The book not only corrects the distorted view of the subject perpetuated by most histories of German literature but will also help to English First World War poetry into perspective *A History of Indian Poetry in English* Rosinka Chaudhuri,2016-03-29 A History of Indian Poetry in English explores the genealogy of Anglophone verse in India from its nineteenth century origins to the present day Beginning with an extensive introduction that charts important theoretical contributions to the field this History includes extensive essays that illuminate the legacy of English in Indian poetry Organized thematically these essays survey the multilayered verse of such diverse poets as Henry Louis Vivian Derozio Rabindranath Tagore Nissim Ezekiel Dom Moraes Kamala Das and Melanie Silgado Written by a host of leading scholars this History also devotes special attention to the lasting significance of imperialism and diaspora in Indian poetry This book is of pivotal importance to the development of Indian poetry in English and will serve as an invaluable reference for specialists and students alike **Dear Person That I Have Not Met...** Joan Beth Beugen,2024-04-12 In the autumn of 2008 Joan Beugen was told by her daughter that she was pregnant with who would become Joan s very first grandchild It was to become an exciting time in her family but Joan was worried She was very concerned that tiny one that was what she called him had no way of knowing what this growing and developing stuff it was going through was all about And she was determined to help reassure tiny one that it was all right But growing into the world can be a scary thing and Joan was determined to help So she began writing letters to this little person that she had not met to explain some of the changes that were happening to him and to give him a head start in dealing with some of the challenges of the waiting world Her letters filled with fun and life lessons remind all of us of our shared humanity **The Cambridge Introduction to German Poetry** Judith Ryan,2012-11 Exploring traditional poems alongside new examples this Introduction conveys the rich rewards that come with reading German poetry *A Poet of Despair Re-examined* Francis Michael Sharp,1974 *Dialogue on the Threshold* Ian Alexander Moore,2022-11-01 In the early 1950s German philosopher Martin Heidegger proclaimed the

Austrian expressionist Georg Trakl to be the poet of his generation and of the hidden Occident Trakl a guilt ridden lyricist who died of a cocaine overdose in the early days of World War I thus became for Heidegger a redemptive successor to Hölderlin Drawing on Derrida's *Geschlecht* series and substantial archival research *Dialogue on the Threshold* explores the productive and problematic tensions that pervade Heidegger's reading of Trakl and reflects more broadly on the thresholds that separate philosophy from poetry gathering from dispersion the same from the other and the native from the foreigner Ian Alexander Moore examines why Heidegger was reluctant to follow Trakl's invitation to cross these thresholds even though his encounter with the poet did compel him to take up in astounding ways many underrepresented topics in his philosophical corpus such as sexual difference pain animality and Christianity A contribution not just to Heidegger and Trakl studies but also more modestly to the old quarrel between philosophy and poetry *Dialogue on the Threshold* concludes with new translations of eighteen poems by Trakl

Heidegger and Literary Studies Andrew Benjamin, 2023-11-23

Martin Heidegger is one of the most influential philosophers of the 20th Century and a key philosophical resource for literary critics Not only has he written about poetry generations of poets have engaged his writings And yet for Heidegger poetry and literature are separate An essential part of the project of this book therefore is to show how both the distinction and connection between literature and poetry is staged within Heidegger's thought It offers Heidegger's perspective on a range of key themes topics poets and writers including Poetry and Poetics Ancient Greek theatre and tragedies and then specifically Friedrich Hölderlin Thomas Mann Paul Celan Euripides and Sophocles As the Chapters comprising this book make clear Heidegger's work remains indispensable for any serious engagement with either literature or poetry today
