Congratulations on purchasing your new RCA Digital TV Converter Box.
Please read these instructions for quick tips on using the unit.

About Digital TV

Digital TV is a new broadcast system for TV stations intended to replace the analog NTSC television system in the United States. The technical standard for Digital TV is defined by the Advanced Television Systems Committee (ATSC).

Digital channels

An advantage of digital TV broadcasting is that each broadcaster can now send multiple channels. For example, a broadcaster might send the main program on channel 8-1 with a weather channel on channel 8-2. To view the weather on that station, just press the number "8", then the "dash" button, and then the number "2". The standard format of digital channel numbers consists of two groups of numbers (2-digit and 1-digit) and separated by a dash (e.g. 12-3).

Receiving digital signals

The Digital TV signal is different from the analog NTSC signal. A good signal strength is required to successfully receive and decode Digital TV broadcasts. Unlike analog broadcasts, which may show a "fuzzy" image with a weak signal, Digital TV images may "break up" or not display at all if the signal is too weak. If your Digital TV signal is weak, you may need to purchase a more powerful antenna to improve reception.

In general, a simple indoor antenna connected to the DTA800B1 Digital TV Converter Box is sufficient for receiving Digital TV. However, some areas may require the use of a more powerful antenna. If you find you are not receiving local stations or the signal is weak, you should switch to a "Smart Antenna" or an outdoor antenna. The Smart Antenna is a new type of steerable antenna without any moving parts and is highly recommended. This Converter Box is compatible for connection with a Smart Antenna.

Step 1: Installation

The Converter Box can be installed either horizontally or vertically. The left side of the Converter Box can be rotated as a stand for vertical installation. You must adequately ventilate the product. Refer to your user manual for the ventilation requirement.
