Read And Write Essay:

Writing about Reading Janet Angelillo, 2003 Janet Angelillo introduces us to an entirely new way of thinking about writing about reading. She shows us how to teach students to manage all the thinking and questioning that precedes their putting pen to paper. More than that, she offers us smarter ways to have students write about their reading that can last them a lifetime. She demonstrates how students' responses to reading can start in a notebook in conversation or in a read aloud, lead to thinking guided by literary criticism, reflect deeper text analysis, and honest writing processes result in a variety of popular genres: book reviews, author profiles, commentaries, editorials, and the literary essay. She even includes tools for teaching day by day units of study, teaching points, a sample minilesson, and lots of student examples, plus chapters on yearlong planning and assessment. Ensure that your students will be readers and writers long after they leave you. Get them enthused and empowered to use whatever they read—facts, statistics, the latest book—as fuel for writing in school and in their working lives. Read Angelillo.
