## PAIRED THEMED STORIES

**Story 1:**

Mia was debating the ball up the left side of the soccer field. It was the state championship, but Mia was daydreaming to hit the clock swinging down, and all Mia had to do was protect the ball for a little longer. If she did, the team would win and go to the state. Instead, she made a bad pass across the field that was stolen by the other team's top player, Holly Smith.

Holly took the ball and tapped toward the goal. Only the goalie stood between her and tying the game. The goalie was not ready to let go, so she had the choice of stopping it or shooting it into the goal as Holly.

As Mia's legs made that fly, she was on the left and spotted back toward her goal. Mia had given something such effort, and as Mia did from out of nowhere and blocked it, the ball went, and the game went over.

**Story 2:**

Sammy was playing football in the kitchen. Sammy had off the counter. A moment later, Sammy's mom found her, even though she was young, that house was empty, and photo of the ball found. Sammy's mom found her, even though she was young, that house was empty, and photo of the ball found.

*Teaching the Common Core Literature Standards in Grades 2-5* Lisa Morris, 2015-07-16 Shifting your literature instruction to meet the Common Core can be tricky The standards are specific about how students should analyze characters themes point of view and more In this new book Lisa Morris makes it easy by taking you through the standards and offering tons of practical strategies tools and mentor texts for grades 2 5 She shows you how to combine the standards into effective units of study so that you can teach with depth rather than worry about coverage Topics covered include Teaching questioning inferring and author s purpose Guiding readers to look at themes and write summaries Showing students how to recognize structural elements of literature Teaching the craft of writing and vocabulary development and Helping students analyse characters and character development Throughout this highly practical book you ll find a variety of charts and other graphic organizers that can be easily adapted for classroom use A list of suggested mentor texts is also available as a free eResource from our website [www.routledge.com/books/details/9781138856172](http://www.routledge.com/books/details/9781138856172)

**Getting to the Common Core** Sharon L. Spencer, Sandra Vavra, 2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Value s of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research
