Reading Lolita In Tehran A Memoir In S:

Reading Lolita in Tehran Azar Nafisi, 2008-11-04 1 NEW YORK TIMES BESTSELLER We all have dreams things we fantasize about doing and generally never get around to This is the story of Azar Nafisi's dream and of the nightmare that made it come true For two years before she left Iran in 1997 Nafisi gathered seven young women at her house every Thursday morning to read and discuss forbidden works of Western literature They were all former students whom she had taught at university Some came from conservative and religious families others were progressive and secular several had spent time in jail They were shy and uncomfortable at first unaccustomed to being asked to speak their minds but soon they began to open up and to speak more freely not only about the novels they were reading but also about themselves their dreams and disappointments Their stories intertwined with those they were reading *Pride and Prejudice* *Washington Square* *Daisy Miller* and *Lolita* as they imagined her in Tehran Nafisi's account flashes back to the early days of the revolution when she first started teaching at the University of Tehran amid the swirl of protests and demonstrations In those frenetic days the students took control of the university expelled faculty members and purged the curriculum When a radical Islamist in Nafisi's class questioned her decision to teach *The Great Gatsby* which he saw as an immoral work that preached falsehoods of the Great Satan she decided to let him put *Gatsby* on trial and stood as the sole witness for the defense Azar Nafisi's luminous tale offers a fascinating portrait of the Iran Iraq war viewed from Tehran and gives us a rare glimpse from the inside of women's lives in revolutionary Iran It is a work of great passion and poetic beauty written with a startlingly original voice Praise for *Reading Lolita in Tehran* Anyone who has ever belonged to a book group must read this book Azar Nafisi takes us into the vivid lives of eight women who must meet in secret to explore the forbidden fiction of the West It is at once a celebration of the power of the novel and a cry of outrage at the reality in which these women are trapped The ayatollahs don't know it but Nafisi is one of the heroes of the Islamic Republic Geraldine Brooks author of *Nine Parts of Desire* *Iranian Women in the Memoir* Emira Derbel, 2017-06 This book investigates the various reasons behind the elevation of the memoir previously categorized as a marginalized form of life writing that denudes the private space of women especially in Western Asian countries such as Iran Through a comparative investigation of Azar Nafisi's *Reading Lolita in Tehran* and Marjane Satrapi's *Persepolis* 1 and 2 the book examines the way both narrative and graphic memoirs offer possibilities for Iranian women to reclaim new territory transgress a post traumatic revolution and reconstruct a new model of womanhood that evades socio political and religious restrictions Exile is conceptualized as empowering rather than a continued status of loss and disillusionment and the liminality of both women writers turns into a space of artistic production The book also resists the New Orientalist scope within which *Reading Lolita in Tehran* more than *Persepolis* has been misread In order to reject these allegations this work sheds light on the representation of Iranian women in *Reading Lolita in Tehran* not as weak victims held captive by a totalitarian version of Islam but as active participants rewriting their

stories through the liberating power of the memoir The comparative approach between narrative and comic memoirs is a fruitful way of displaying similar experiences of disillusionment loss return and exile through different techniques The common thread uniting both memoirs is their zeal to reclaim Iranian women's agency and strength over subservience and passivity

Analyzing Oppression Ann E. Cudd, 2006-04-27 Analyzing Oppression presents a new integrated theory of social oppression which tackles the fundamental question that no theory of oppression has satisfactorily answered if there is no natural hierarchy among humans why are some cases of oppression so persistent Cudd argues that the explanation lies in the coercive co-opting of the oppressed to join in their own oppression This answer sets the stage for analysis throughout the book as it explores the questions of how and why the oppressed join in their oppression Cudd argues that oppression is an institutionally structured harm perpetrated on social groups by other groups using direct and indirect material economic and psychological force Among the most important and insidious of the indirect forces is an economic force that operates through oppressed persons own rational choices This force constitutes the central feature of analysis and the book argues that this force is especially insidious because it conceals the fact of oppression from the oppressed and from others who would be sympathetic to their plight The oppressed come to believe that they suffer personal failings and this belief appears to absolve society from responsibility While on Cudd's view oppression is grounded in material exploitation and physical deprivation it cannot be long sustained without corresponding psychological forces Cudd examines the direct and indirect psychological forces that generate and sustain oppression She discusses strategies that groups have used to resist oppression and argues that all persons have a moral responsibility to resist in some way In the concluding chapter Cudd proposes a concept of freedom that would be possible for humans in a world that is actively opposing oppression arguing that freedom for each individual is only possible when we achieve freedom for all others

Diamonds in the Rough Todd Cleveland, 2015-07-15 Diamonds in the Rough explores the lives of African laborers on Angola's diamond mines from the commencement of operations in 1917 to the colony's independence from Portugal in 1975 The mines were owned and operated by the Diamond Company of Angola or Diamang which enjoyed exclusive mining and labor concessions granted by the colonial government Through these monopolies the company became the most profitable enterprise in Portugal's African empire After a tumultuous initial period the company's mines and mining encampments experienced a remarkable degree of stability in striking contrast to the labor unrest and ethnic conflicts that flared in other regions Even during the Angolan war for independence 1961-75 Diamang's zone of

influence remained comparatively untroubled Todd Cleveland explains that this unparalleled level of quietude was a product of three factors African workers high levels of social and occupational commitment or professionalism the extreme isolation of the mining installations and efforts by Diamang to attract and retain scarce laborers through a calculated paternalism The company's offer of decent accommodations and recreational activities as well as the presence of women and children induced reciprocal behavior on the part of the miners a professionalism that pervaded both the social and the workplace environments This disparity between the harshness of the colonial labor regime elsewhere and the relatively agreeable conditions and attendant professionalism of employees at Diamang opens up new ways of thinking about how Africans in colonial contexts engaged with forced labor mining capital and ultimately each other *Transcultural Humanities in South Asia* Waseem Anwar, Nosheen Yousaf, 2022-03-15 This volume looks at the implications of transcultural humanities in South Asia which is becoming a crucial area of research within literary and cultural studies The volume also explores various complex critical dimensions of transculturation its indeterminate periodisation its temporal and spatial nonlinearity its territoriality and intersectionality Drawing on contributors from around the globe the entries look at literature and poetics theory and praxis borders and nations politics Partition gender and sexuality the environment representations in art and pedagogy and the transcultural classroom Using key examples and case studies the contributors look at current developments in transcultural and transnational standpoints and their possible educational outcomes A broad and comprehensive collection as it also speaks about the value of the humanities and the significance of South Asian contexts *Transcultural Humanities in South Asia* will be of particular interest to those working on postcolonial studies literary studies Asian studies and more
