Zagarra, 2023-03-14 Religious commitments can be a powerful engine for progressive social change and in this new book Raúl E Zagarra examines the process of articulation of religious beliefs and political concerns that takes place in religious organizing and activism Focusing on the example of Latin American liberation theology and the work of Peruvian theologian Gustavo Gutiérrez Zagarra shows how liberation theology advocates have been able to produce a new balance between faith and politics that advances an agenda of progressive social change without reducing politics to faith or faith to politics Drawing from theologian David Tracy's method of critical correlation the book focuses on key historical philosophical and theological shifts that have allowed liberation theologians to produce a new interpretation of the relationship between faith and politics in the Christian tradition especially when issues of social justice are at stake The book further approaches liberation theology's contributions to theorizing social justice through an unconventional path a critical dialogue with the work of philosopher John Rawls This dialogue as Zagarra contends allows us to see more clearly the contributions of liberation theology to the cause of progressive social change Ultimately the book stands between public religion and public reason offering something of a blueprint for theological innovation and for how to remain committed to one's faith while respecting and defending the core values of democracy **A Guide to John Henry Newman** Juan R. Theologies in South Africa: Genealogies, Traditions, and Speculations Khegan M. Delport, 2024-10-22 The relationship between philosophy and theology has been a live question since the origins of Christianity. Attending to a genealogy of how theology and philosophy have been related is important for conceiving their ongoing engagement. However, the question of context of where they are so related and practiced has only recently begun to be reflected upon. The current volume aims to make a contribution to this recounting by focusing on some of the ways theology and philosophy have been and are being interfaced in the Global South and more specifically in South Africa.

Imaginatio et Ratio: A Journal of Theology and the Arts, Volume 1, Issue 1 2012 Jeff Sellars, 2012-08-01 *Imaginatio et Ratio* www.imaginatioetratio.org is a peer reviewed journal primarily focusing on the intersection between the arts and theology, hoping to allow imagination and reason to be seen as intimately intertwined as different expressions of the same divine truth. *Imaginatio et Ratio* was started in the hopes that it could serve a growing community of artists and thinkers and strives to present accessible but high quality art, literary, fiction, creative non-fiction, and theology, philosophy, as well as interviews and book, film, art, and music reviews. The journal is published twice a year and is available in print and digital formats.

In Defense of Extended Conciliar Christology Timothy Pawl, 2018-12-13 *In Defense of Extended Conciliar Christology* A Philosophical Essay examines the logical consistency and coherence of Extended Conciliar Christology, the Christological doctrine that results from conjoining Conciliar Christology, the Christology of the first seven ecumenical councils of the Christian Church, with five additional theses. These theses are the claims that multiple incarnations are possible, Christ descended into Hell during his three days of death, Christ's human will was free, Christ was impeccable, and that Christ via his human intellect knew all things past, present, and future. These five theses, while not found in the first seven ecumenical councils, are common in the Christian theological tradition. The main question Timothy Pawl asks in this book is whether these five theses, when conjoined with Conciliar Christology, imply a contradiction. This study does not undertake to defend the truth of Extended Conciliar Christology. Rather, it shows that the extant philosophical objections to Extended Conciliar Christology fail.

Natural Law & the Secular Mythos Gregory Morgan, 2025-02-20 This book argues that natural law, when construed as an epistemological and trans-cultural lingua franca adjudged capable of legitimating the rational intelligibility and universal applicability of specific Christian moral principles within contemporary secular discourse, has failed. Through a detailed analysis of the contributions of three prominent natural law theorists who are located within a shared philosophical-theological tradition, namely John Finnis, Jean Porter, and John Milbank, the text illuminates the extent to which this failure is as much intramural as it is extramural. Morgan explores how new horizons open up for natural law if the theological unsaid's are allowed to surface and the disremembering power of the secular mythos is overcome. The final chapter's of the book addresses one such horizon: that the theoretical fulcrum of the natural law lies not in its perceptual self-evidence or in its immanent secularity, but rather in its subtle provision of an immanent eschatology.

Femenist Ethics and Natural Law Cristina L. H. Traina, 1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas s moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas s moral vision is due to inadequate attention to feminist critical methods This highly original book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place

Receptive Ecumenism as Transformative Ecclesial Learning Paul D. Murray, Gregory A. Ryan, Paul Lakeland, 2022-05-26 Receptive Ecumenism asks not what other churches can learn from us but what can we learn and receive with integrity from our ecclesial others Since the publication of Receptive Ecumenism and the Call to Catholic Learning Exploring a Way for Contemporary Ecumenism OUP 2008 this fresh ecumenical strategy has been adopted critiqued and developed in different Christian traditions and in local national and international settings including the most recent bilateral dialogue of the Anglican Roman Catholic International Commission ARCIC III The thirty eight chapters in this new volume by academics church leaders and ecumenical practitioners who have adopted and adapted Receptive Ecumenism in various ecclesial and cultural contexts show how Receptive Ecumenism has grown and matured Part One demonstrates how Receptive Ecumenism itself is capable of being received with integrity into very different ecclesiologies and ecclesial traditions In Part Two this approach to transformative ecumenical learning is applied to some recurrent ecclesial problems such as the understanding and practice of ministry revealing new insights and practical opportunities Part Three examines the potential and challenges for Receptive Ecumenism in different international settings Part Four draws on scripture hermeneutics and pneumatology to offer critical reflection on how Receptive Ecumenism itself implements transformative ecclesial learning Addressing the 70th Anniversary of the World Council of Churches Archbishop Justin Welby said that One of the most important of recent ecumenical developments has been the concept of Receptive

Ecumenism This volume provides an indispensable point of reference for understanding and applying that concept in the life of the Christian churches today Weltanschauung and Apologia Elias Hofer, 2022-10-11 This book allows us to accompany C S Lewis on his intellectual and spiritual journey from atheism to pantheism and eventually to Christianity It analyzes key elements of Lewis's Christian worldview and identifies challenges leveled against it from alternative worldviews It examines Lewis's apologetic methodology highlighting how it was shaped by his worldview and provides an analysis of Lewis's specific responses to a number of objections The project also serves as a comparative analysis of worldviews particularly as they relate to truth claims of the Christian faith The notion of worldview is critical to the formulation of views One's worldview determines how reality is perceived It's characterized as a set of glasses through which we view our surroundings and interpret experiences It accounts for the perspective we bring to every event in life and helps explain why different people see things differently when looking at the same data The same evidence may lead one person to reject a particular conclusion while moving another to embrace what the other rejected Lewis's major works are explored at length in this book Although much has been written about Lewis Hofer's examination of the influence of worldview on his work is unique Working with Words Stanley Hauerwas, 2011-02-16 The crucial challenge for theology is that when it is read the reader thinks This is true Recognizing claims that are true enables readers to identify an honest expression of life's complexities The trick is to show that theological claims the words that must be used to speak of God are necessary if the theologian is to speak honestly of the complexities of life The worst betrayal of the task of theology comes when the theologian fears that the words he or she must use are not necessary This new collection of essays lectures and sermons by Stanley Hauerwas is focused on the central challenge risk and difficulty of this necessity working with words about God The task of theology is to help us do things with words God is not a word peculiar to theology but if God is a word to be properly used by Christians the word must be disciplined by Christian practice It should therefore not be surprising that like any word we must learn how to say God
